Statistics of Employment

The Number of employment in 2005 - Annual average -

METHODOLOGICAL EXPLANATIONS

The data on the employed in enterprises, cooperatives, institutions and organizations were collected on the basis of a regular semiannual survey, i.e. the Semiannual report on the employed and their salaries and wages (RAD-1P) and through the Survey supplementary to the semiannual report on the employed and their salaries and wages, which provides the data on the number of employment of small enterprises (up to 50 employed) that were not covered by regular semiannual survey.

The data on private entrepreneurs and the persons individually running business and on their employees, collected are through the regular semiannual survey, RAD-15, provided by the Health insurance office of the Republic of Serbia.

The annual average was calculated as the arithmetical mean value of the number of the employed persons as of 31 March and of 30 September.

The data presentation by activities was carried out pursuant to the Act on classification of activities and the register of classification units ("Official gazette of FRY", number 31/96, 12/98 and 74/99).
