Retail trade turnover in the Republic of Serbia, October 2006 - Preliminary results -

Retail trade turnover

	$\frac{X\ 2006}{X\ 2005}$	$\frac{X\ 2006}{IX\ 2006}$	$\frac{I-X\ 2006}{I-X\ 2005}$	$\frac{IX\ 2006}{\emptyset\ 2005}$	$\frac{X\ 2006}{\emptyset\ 2005}$
Turnover indices at current prices					
Republic of Serbia	108,7	103,0	122,5	127,2	131,1
Central Serbia	108,1	103,3	123,3	125,2	129,4
Vojvodina	110,3	102,3	120,3	132,4	135,4
Turnover indices at constant prices					
Republic of Serbia	100,6	103,8	107,8	111,9	116,2
Central Serbia	100,4	104,2	108,6	110,3	114,9
Vojvodina	101,2	102,7	105,8	116,3	119,5

According to the preliminary results, the turnover of retail trade in the Republic of Serbia in October 2006, compared to October 2005, rose by 8.7% at current prices, and by 0.6% at constant prices. In October 2006, compared to the previous month, the turnover at current prices was by 3% higher and at constant prices it was higher by 3.8%.

In the first ten months 2006, compared to the same period 2005, the turnover of retail trade saw a 22.5% increase at current prices and a 7.8% increase at constant prices.

**Indices of retail trade turnover, current prices
- Republic of Serbia -**

Notes: The indices published in this communication are obtained from the Monthly Survey of Retail Trade (TRG-10), a regular monthly survey which has been carried out since January 2003 on the sample of selected enterprises of all types of property that deal with retail trade, no matter whether retail trade is their principal activity or not. Large enterprises have been included in the sample intentionally, on the basis of the turnover made in retail trade in the previous period, while the others have been selected by the random sample method.

The value of turnover in retail trade since 1 January 2005 includes the VAT.

The turnover indices at constant prices are obtained by deflating the indices at current prices by the corresponding indices of retail prices, electricity excluded.

All published indices ought to be regarded as preliminary results, which means that some corrections can appear on the basis of the obtained results in the quarterly statistical survey – the Quarterly Survey of Retail Trade (TRG-16), which is published as a separate communication.
