## Republic of Serbia: Investments in fixed assets, 2004 - 2005

### Methodological explanations

The Statistical Office of the Republic of Serbia publishes the data on the total investments in fixed assets for the Republic of Serbia, excluding the data for Kosovo and Metohija, for 2004 and 2005, at current prices. The data are presented pursuant to organization principle, on the level of section of the Classification of Activities.

### Sources and methods of data collections

The data on the investments in the public ownership sector (comprising mixed ownership, communes and state ownership) are the results of the survey "Investments in fixed assets and the funds of public consumption" (form INV-01) that has been executed since 1966. The reporting units are all legal entities (persons) in the country that are direct investors.

In order to improve the quality of data on the investments of legal persons in the private ownership sector, a new survey has been introduced since 2004: "Investments in fixed assets in private ownership sector". The survey is executed by the way of sample and the data are collected in the regular Annual survey of investments in fixed assets (form INV-02). The form has been adjusted to international statistical standards and the requirements of following the category of investments within the System of national accounts.

The investments of physical persons, which make a part of the investments in the private ownership sector, are estimated according to the data available from the existing statistical surveys.

### Definitions

The data relate to the investments in fixed assets that were carried out in the respective year and their value is the value of actually executed constructions, production or purchases of objects, equipment and other, regardless the fact whether the investments were accomplished or not and whether they were paid off. The fixed assets may be new or second-hand, purchased or received free from domestic or international donators, produced in own arrangement or obtained through financial leasing.
