

2006 HOUSEHOLD BUDGET SURVEY

- Final results -

The data were obtained through Household Budget Survey, which has been conducted since 2003 according to international standards and recommendations of EUROSTAT, ILO and UN and that provides for international data comparability. The survey collects the data on income, expenditure and household consumption, i.e. the data on basic elements of individual consumption. Besides, the survey compiles also the data on some important living standard indicators (dwelling conditions, supply with durable consumer goods, etc.), as well as certain basic data related to demographic, economic and social features of households.

Two-stage stratified, rotating sample is applied in the survey with enumeration districts as primary selection units and households as secondary ones. Basic geographic strata are the territory of Central Serbia and Vojvodina. 200 households are been interviewed every fifteen days, respectively 4800 households annually.

Out of total number of households envisaged for the survey (4800 for the Republic of Serbia), the number of 4560 households (95%) was covered by the survey.

**Household income in money (structure),
 Republic of Serbia, 2006**

- ☑ Regular salaries and wages
- Other income
- Pensions (old-age, family, disablement and other)
- Other social insurance receipts
- ▨ Income from agriculture, hunting and fishing
- External receipts
- Real estate related income
- Donations and awards
- Customer and investment credits
- Other receipts

**Individual consumption (structure),
 Republic of Serbia, 2006**

- ☑ Food and non-alcoholic beverages
- Alcoholic drinks and tobacco
- Clothes and footwear
- Dwelling, water, electricity, gas and other fuels supply
- ▨ Home furniture, equipment and maintenance
- Health service
- Transport
- Communications
- Recreation and culture
- Education
- Restaurants and hotels
- Other goods and services

Available budget and and individual consumption in 2006

Methodological explanations

Every household chosen according to the sample plan, single-member or several members including, is a survey unit. A household is: a) a community of persons whose members live together, prepare food and spend earned income jointly; b) a single person, living, preparing food and spending income on his/her own.

The survey applies the method of diary keeping (a household keeps a individual consumption diary for fifteen, i.e. sixteen days) regarding the items and services of individual consumption and also interview method on the basis of questionnaires, where the reference period for durables lasts twelve months, for semi-durables three months and for income, agriculture, hunting and fishing - three months.

Available household budget comprises income in money and the money value of natural consumption and receipts in kind, which were available to households in the respective survey period.

Household income in money

- **Regular salaries and wages** cover the income from regular employment.
- **Other income comprises:** money receipts for overtime work, pursuant to purchase order, author's deed contract, etc.
- **Pensions (old-age, family, disablement and other)** cover: the receipts pursuant to pension and disablement insurance and supplementary payments.
- **Other social insurance related receipts** include: social aid, supplements and other welfare receipts; receipts in cases of unemployment and temporary unemployment; alimentation and support; health insurance related receipts, disablement insurance related receipts and supplements; children allowances; student grants and remuneration, i.e. compensations for trade students.
- **Income from agriculture, hunting and fishing** includes: earnings of households that are active in agriculture, hunting and fishing.
- **External receipts** include money donations and other external receipts.
- **Real estate related income** comprises room and flat rents, interests, dividends and sales related receipts (real estates and movables).
- **Donations and awards** comprise money donations, lottery related receipts, etc.
- **Customer and investment credits** refer to credits raised in last 12 months.
- **Other receipts** saving deposits raised, lending returns, decreased cash amounts kept in households, refunded nationalized estates, life insurance and real estate insurance premiums, etc.

Household receipts in kind

- **Earned receipts in kind** include food, clothes, footwear, household expenditures (electricity, phone, registration, car fuel) paid by employer, etc.
- **Natural consumption** comprises the value of products from own household production that are used for individual consumption (food, drinks, wood for heating, etc.)

Individual consumption of households is presented by the following groups of COICOP classification (Classification of individual consumption by purpose): food and non-alcoholic beverages; alcoholic drinks and tobacco; clothes and footwear; dwelling, water, electricity, gas and other fuels supply; home furniture, equipment, appliances and maintenance; health service; transport; communications; recreation and culture; education; restaurants and hotels; and other goods and services.

The published data relate to available budget and individual consumption in 2006 and they present monthly average values by household, given in dinar amounts.

The data are published for the Republic of Serbia, the central Serbia, the City of Belgrade, the central Serbia (without Belgrade) and Vojvodina, for all households, separately for urban and the other area.
