¹⁾ Base: the same period of 2008.

In the first quarter of 2009, in the Republic of Serbia, total sale and purchase value of agriculture, forestry and fishing products, compared to the same period 2008, decreased by 8.4% at current prices and by 10.9% at constant prices. Value of sold products from own production of enterprises and cooperatives decreased by 8.1% at current prices and by 9.1% at constant prices, while value of purchase from individual holdings decreased by 8.9% at current prices and by 12.9% at constant prices.

Notes:

Data on sale and purchase of agricultural, forestry and fishing products are obtained from Monthly report on realized agricultural products from own production of agricultural enterprises and cooperatives (PO-TRG- 33) and from Monthly report on purchase of agricultural products from individual holdings (TRG-31). These reports also provide the data on quantities and values of agricultural products. Value of delivered products is calculated according to selling producers' prices and value of purchase is computed according to purchasing prices, which organizations pay to individual holdings, for taken products. Value of sale, i.e. purchase does not include the following: VAT, packaging, transportation costs, costs of keeping and storage, discounts, as well as the determined bonuses that producers get for delivered products. Values are expressed in RSD. Indices at constant prices are calculated by deflating indices at current prices by the corresponding indices of producers' prices of agricultural products.
