Total turnover value of agricultural products on green-markets in the Republic of Serbia in the first six months of 2009 decreased by 0.5% at current prices and increased by 1.9% at constant prices, relative to the same period 2008.

Notes:

Data published in this communication are collected from the regular statistical survey "Monthly report on turnover of agricultural products on green-markets". The report is provided by public and other enterprises that offer services related to renting selling space for green-markets and for other market services. Sale of agricultural products on green-markets includes direct sale performed by individual agricultural producers to final consumers, on organized (green or so-called peasant-provisory) markets. Turnover that is performed on green-markets by enterprises (via their retail trade shops) and individual trade shops is not considered to be turnover on green-markets and is not presented in this Communication. Values are expressed in dinars (RSD).
