Notes

Data on expected yields of late crops, fruit and grapes are based on the reports delivered by agricultural enterprises and cooperatives and estimates provided by statisticians, for holdings of individual agricultural producers.

According to these data, expected maize production in 2009 is 6395 thousand tons, which is by 3.8% more than in 2008. Compared to last year, increased production of sugar beet is expected, by 23.5%, of soya (by 7.1%), of potatoes (by 7.4%), of beans (by 9.4%) and decreased production of sunflower, by 16.6%.

Compared to ten-year average (1998-2008), expected production of maize, sugar beet, sunflower, soya and potatoes increased by 18.2%, 19.6%, 12.7%, 29.1% and 6.9%, respectively, while expected production of beans decreased by 11.4%.

Referring to fruit production, compared to 2008, increased production of apples (by 21.8%) and plums (by 13.8%) is expected in 2009. Compared to ten-year average, increased production of apples, by 45.3% and plums, by 52.0% is expected. Expected production of grapevines in the Republic of Serbia is increased by 13.8%, compared to 2008 and by 21.8%, relative to ten-year average.

Previous results on harvest of late crops and fruit and grapes production in 2009, will be published at the end of November.
