PREFACE

By launching the publication "Municipalities of Serbia, 2008", the Statistical Office of the Republic of Serbia carries on to publish annual statistics compilations on municipalities. Our decision to establish a publication that comprises the data of various aspects of social and economic development of Serbian municipalities came from our appreciation of the social requirements for an overall insight of the status and developments of certain municipalities.

The publication "Municipalities of Serbia, 2008", just as the previous volumes of the series, features about 1000 data for each municipality. The contents, coverage and presentations make this volume actually a complete yearbook of municipalities that is, regarding the distribution of contents, an elaboration of the Statistical Yearbook of Serbia, 2008.

In presenting the data we took into account the present organization of the Republic of Serbia and the respective bodies. Therefore, the municipalities are divided into administrative districts pursuant to the Act on ministries and their (external) organizations, which the Government of the Republic of Serbia passed on 29 January 1992 (Official gazette of RS, no. 3/92 and 36/92).

A wider selection of the data presented by municipalities, which this publication could not possibly comprise, could be found in certain volumes of the Office edition "Municipal statistics", as well as in some volumes of the Bulletin and their summary can be found at the end of the publication. In the Statistical Office of the Republic of Serbia in Belgrade and also in the regional offices we keep filed more detailed statistical data, which were not published, however they are available to the interested clients. The data are offered in classic printed form and in electronic form (series 1997-2007 available at SORS website).

Apart from the data of the Statistical Office of the Republic of Serbia, the publication features the data provided by the Ministry of Interior of the Republic of Serbia, the National Bank of Serbia - the Solvency Center, the Geodetic Office of the Republic of Serbia, the National Employment Service and the Public Health Institute of Serbia.

In order to provide an insight into the data of this publication for the largest number of users, the Statistical Office of the Republic of Serbia edited also a separate publication, the Municipalities of Serbia, 2008, in English.

I MUNICIPALITIES, BY DISTRICTS

1. GENERAL DATA

1. General data, 2007	15
-----------------------------	----

2. SOCIAL SYSTEM

1. Elections for delegates to assemblies of municipalities and towns, 2004.....	20
2. Proposers, by number of elected delegates to assemblies of municipalities and towns, 2004	24
3. Delegates of assemblies to municipalities and towns, by sex and age, 2004	28

3. POPULATION

1. Population.....	32
2. Population by age and sex, according to 2002 census	36
3. Basic population contingents, according to 2002 census	56
4. Population, by national or ethnic affiliation, according to 2002 census.....	60
5. Population aged 15 and over by sex and educational attainment, according to 2002 census	68
6. Population, by activity, according to 2002 census	76
7. Population aged 15 and over by marital status and sex, according to 2002 census	80
8. Agricultural population by activity and sex, according to 2002 census	84
9. Households by number of members, according to 2002 census	88
10. Families, by number of children, according to 2002 census	92
11. Vital events, 2007	96
12. Causes of death, 2007	100
13. Estimated number of population, state as of 30 June	108
14. Basic contingents and indicators of population of Republic of Serbia, 2007	112

4. EMPLOYMENT AND EARNINGS

1. Employees, 2007.....	116
2. Employees, by fields of activities, 2007.....	120
3. Structure of employees, 2007	128
4. Unemployed - state as of 31 December 2007.....	136
5. Salaries and wages per employee, tax and contributions deducted, by sections of activities January-December 2007	140

5. BUDGETS AND RESOURCES	
1. Budget revenues, 2007	148
2. Budget expenditures, 2007	152
6. BUDGET BENEFICIARIES EXPENDITURES	
1. Budget beneficiaries expenditures, 2007	156
7. INVESTMENTS	
1. Realized investments in new fixed assets, by type of construction and technical structure, 2007	160
2. Realized investments in new fixed assets, by activities, 2007	164
8. PRICES	
1. Average retail prices in towns, 2007	172
9. AGRICULTURE	
1.1. Utilized agricultural land, 2007 – enterprise, cooperatives and family holdings – total	178
1.2. Utilized agricultural land, 2007 - private agricultural holdings	186
2. Production of wheat and maize, 2007	194
3. Production of industrial and vegetable crops, 2007	198
4. Production of fodder crops, 2007	202
5. Production of fruits and grapes, 2007	206
6. Number of livestock, state as of 1 December 2007	210
10. FORESTRY	
1. Afforested land and felled timber, 2007	214
11. WATER AND SANITATION SERVICES	
1. Public water supply and collecting system, 2007	218
12. CONSTRUCTION	
1. Value of construction works executed, 2007	222
2. Housing construction, 2007	226
3. Demolished dwellings, 2007	230
13. TRADE	
1. Sale and purchase of selected products of agriculture, forestry and fishing, 2007	232
14. TOURISM	
1. Tourism, 2007	236
2. Tourists and overnight stays, by tourist places, 2007	240

15. TRANSPORT AND COMMUNICATION	
1. Length of roads, 2007	242
2. Post activities and telecommunications, 2007	246
3. Registered road vehicles, 2007	250
16. EDUCATION	
1. Regular primary and secondary schools, 2006/2007 school year end	254
2. Special schools and schools for adults - primary and secondary, 2006/2007 school year	258
3. Higher schools and university faculties, 2006/2007 school year	262
4. Students hostels - and boarding homes, 2008	264
5. Preschool institutions, 2007/2008 school year	268
17. CULTURE	
1. Cinemas, 2007	278
18. PUBLIC HEALTH	
1. Medical doctors, general dental practitioners and graduate pharmacists in public health, 2007	281
19. SOCIAL WELFARE	
1. Minor welfare beneficiaries, 2007	285
2. Adult welfare beneficiaries, 2007	289
20. JUSTICE ADMINISTRATION	
1. Sentenced adults and minors, by place of committing criminal offence and by criminal offence, 2007	293
Methodological explanations	297

Municipalities of Serbia, 2008: Main principles of editing

Distribution of material

The statistical material in this publication was presented following basically the same sequence as in the Statistical Yearbook of Serbia. Certain chapters of the Yearbook were excluded here: land and climate, national accounts, external trade, savings and credits and individual.

Principles of presentation

The publication includes only the basic data of the large volume statistics. The data were selected in accordance with the principles of creating the publication of this kind. Although it was initially envisaged to comprise data in multi-year series, for technical reasons the publication is limited to the most recent data for a year. In the end we offered information about the source of the respective data for the previous period, which provide users with the opportunity to create data series on their own.

The municipalities were divided here into 29 administrative districts, pursuant to the Act on ministries and their (external) organizations, which was passed by the Government of the republic of Serbia on 29 January 1992 (Official gazette of RS, no 3/92 and 36/92). The municipalities of the City of Belgrade were presented as a separate group.

Methodological explanations

In a separate chapter of the publication we gave the most required methodological explanations, prepared for each chapter separately. For the purpose of a good layout they were divided in parts: sources and methods of data collecting, data coverage and definitions. The Statistical Office of Serbia and Montenegro published the detailed methodological explanations for each individual survey in the volumes of "Methodological papers".

Data sources

The statistical data presented here are the results of regular statistical reporting, censuses (population census) and the surveys of statistical programs of interests for the country and especially for the Republic of Serbia.

The publication offers the statistical data provided by the following institutions: the National Bank of Serbia - the Solvency Center, the Geodetic Office of the Republic of Serbia, the National Employment Service and the Public Health Institute of Serbia. In the tables containing these data we gave the full titles of the data sources.

Coverage

The data coverage, whole and partial, is explained in the methodological papers. The data are fully comparable by municipalities and the years of production (in the cases where the data for several years are given). However due to different methodological basis, the data presented in various tables are not completely comparable.

Technical presentations

As a rule, all the municipalities were comprised by table presentations. In certain fields, where the phenomena observed are not characteristic of all municipalities, those municipalities not featuring the phenomena observed are excluded from the presentation. The presentation of data on municipalities is the most complete in the case of the City of Belgrade,

Due to known reasons, our Office cannot collect and process the data for Kosovo and Metohia. Therefore the data for the Republic of Serbia are to be regarded as the sum of relative data for the central Serbia and Vojvodina.

¹⁾ Ageing index is the ratio of old (aged 60 and over) and young (aged 0-19) population.

3-14. BASIC CONTINGENTS AND INDICATORS OF POPULATION OF REPUBLIC OF SERBIA, 2007 (continued)

Administrative district City Municipality	Total population		Basic contingents of population										Life expectancy of live births 2005-2007	
			Working (15-64)		Adults (18 and over)		Pre-school (0-6)		With compulsory education (7-14)		Fertile (15-49)

¹⁾ Annual average is calculated on the basis of the states as of 31 March and 30 September.

²⁾ Covered are employees in enterprise, institutions, cooperatives and other organizations and sole proprietors as well.

³⁾ Employed in small-size enterprise (up to 50 employed) are included. They are not included in regular semi-annual survey and are obtained as estimate from the Interview for supplement to semi-annual survey of employment.

4-1. EMPLOYEES, 2007 (continued)

¹⁾ Average number of overnight stays is calculated by dividing number of overnight stays by number of tourists. As tourists are registered in each place where they stay, in case of changing place we have repeated data, i.e. duplicating.

Therefore, average number of overnight stays, calculated in this way, is probably smaller than real one.

¹⁾ In relation to previous years, certain considerable data changes occurred. This resulted from discontinued traffic of analog operators. Also, due to transfer from analog to digital operators in 2007, the distribution of connections, and capacities of existing and new operators were reorganized. Therefore certain 'overflow' of connected capacities among municipalities is found in the report.

¹⁾ Difference between "all" and sum of shown types of criminal offence stands for "other criminal offences".

METHODOLOGICAL EXPLANATIONS

GENERAL INFORMATION

Sources and methods of data collection

The data on the total area of the Republic of Serbia, on the areas of the Autonomous Province of Vojvodina and the Autonomous Province of Kosovo and Metohia were taken over from the Federal geodetic office as of 1953. The Geodetic Office of the Republic of Serbia provided the data on the area of the municipalities as of 1 January 2006. Since the new cadastre measurements are in process, the data on the total area of the Republic and the Provinces should be considered as provisional. The data on the area of the most of municipalities are final; therefore the discrepancy exists between the sum of the municipal areas and the total area. The data on the number of cadastre municipalities were also taken over from the Geodetic Office of the Republic of Serbia.

The data on population present the estimated population in the mid-year (30 June 2006). The population estimations for 2006 were derived according to the population estimation of 1 January 2006 and the data on the natural mechanical migrations in 2006. The mechanical component of migrations covers the internal (domestic) migrations only.

SOCIAL SYSTEM

ELECTIONS AND COMPOSITIONS OF MUNICIPAL AND CITY/TOWN ASSEMBLIES

Sources and methods of data collection

The data on the results of the local government elections, i.e. the elections for the delegates to municipal and city/town assemblies were obtained from the municipal and city/town electoral boards.

The data were collected through summarized reports for the level of municipality, i.e. city/town.

Coverage

The election results for 165 municipalities (two of which are cities: Novi Sad and Kragujevac) were considered. 13 municipalities had non-regular elections: seven municipalities in 2002 and six municipalities in 2003. In the rest of 152 municipalities the elections were held on 19 September 2004.

Definitions

Having changed the socio-economic and political establishment, introducing multi-party system, as provided by the changed Constitution, the political system has also been changed. The candidates for delegates are pronounced by political parties or coalitions of parties, i.e. civil groups. The municipal and city/town assemblies are single-house institutions and the mandate of delegates lasts four years.

These elections were the first local elections to introduce the proportional system, as envisaged by the Act on local elections, passed in 2002.

POPULATION

Sources and methods of data collection

The data on the population and households in 1921, 1931, 1948, 1953, 1961, 1971, 1981, 1991 and 2002 were obtained from the respective censuses.

The population number in mid-year (as of 30 June) is estimated on the basis of the data of population census, the data on the population increase and (from 1989 on) the data on internal migrations.

Pursuant to the data of the last, 2002 population census we revised the estimated number of population in mid-year for the census interval 1991-2002. Moreover we revised the internal migrations from 2002 on.

The data on births, deaths and contracted marriages are provided by registrars and the data on the marriages dissolved (divorces) by the courts of respective jurisdiction.

Coverage

The statistics of births cover all births (live and dead births) in the respective year. The statistics of deaths covers all death cases. The statistics of contracted marriages cover the marriages that have been legally contracted, i.e. entered into the register of marriages. The statistics of dissolved marriages cover the irrevocably dissolved / divorced marriages, null and void made marriages.

According to the legal provisions on registers, we enter births, deaths and marriage contracts into the registers kept for the region where the respective events took place, regardless the fact whether this is the place of residence of the concerning parties. In processing the data are further re-classified according to place of residence and this complies with the census conception of constant population.

Definitions

Population. In post-war censuses, the population was registered and the output presented according to the conception of constant population, i.e. respondents were to be registered at their usual places of residence, even if in the time of census execution they were absent for any reason (travel, education, fieldwork, work abroad, military service, medical treatment, imprisonment, etc.). The households provided the data for these respondents. The data on each respondent were included in the census output relative to the place of their usual residence, regardless the fact they were present there or not.

Pursuant to international recommendations, by the 2002 census in constant population we included, apart from domestic population, also our citizens that worked, i.e. stayed abroad for a year or less, as well as the foreign citizens that worked here or stayed as family members for more than a year. In Table 3.1, the final data on the number of population as in censuses of 1991 and 2002 are comparable, since by special processing of the 1991 census data we excluded the Yugoslav citizens who worked or stayed abroad for more than a year.

The 2002 census did not cover the territory of the AP Kosovo and Metohia.

National and ethnic affiliation. As in the previous post-war censuses, the data on the national composition of the population in the 2002 census were collected according to free declaration of the respondents. Pursuant to Article 45, the Constitution of the Federal Republic of Yugoslavia, the citizens were granted full freedom to declare their national affiliation. Further, the citizens are free not to be declared on the issue and this was to be registered as 'not declared'.

For the children under the age of 15, the reply was provided by a parent, an adopter parent or a guardian.

Age. In the census data and vital statistics tables, the population was categorized by age i.e. (complete) living years. Each age group relates to the complete years of age, e.g. the age group 0 – 4 comprises the children from the birth to the completed fifth year.

According to the data of age, several important population sub-sets are derived: pre-school children (under 7, i.e. 0 – 6 years of age), primary school /compulsory education/ children (7-14 years of age), working age population (between the age of 15 to 64), female fertile population (15 – 49).

Educational attainment. As in the previous census, the 2002 census provided the data referring to the educational attainment, i.e. the school completed that presents the educational attainment. The responds to this issue were not collected from pre-school children and primary school children. The persons who had not completed primary school gave the data on the schooling years completed.

The data are presented in tables for the population aged 15 and over. The comparability with the 1991 census data was maintained, however the census 2002 features more detailed data regarding secondary education that covers: two-year and three-year technical schools, high-schools, four and five-study-year technical schools, secondary vocational education and training and the schools of post-secondary specialization. In coding the educational attainment, we applied the International Standard Classification of Education (ISCED 1997).

Marital status. The data on marital status are provided for the population aged 15 and over. Just as before, the 2002 census data on marital status refers to the actual legal status (legal marital status) and not to the factual status of families. Namely, the persons living in informal, extra-marital communities provided the data on the legal marital status before these communities were established.

Active population anticipates the persons aged 15 and over, with occupation, as well as the unemployed persons seeking employment and the persons on leave for military service (active population without occupation). Under the term 'occupation' we anticipate the execution of certain jobs in order to provide for life support.

The persons acquiring (personal) income are those not included in the set of active population, however with sustenance provided from regular receipts, e.g. pension (old-age, disablement, family pensions), real estate related earnings (lease of flat, house, land, shop, etc.) and other personal income (disablement and welfare subsidies, family/children allowances, scholarships, etc.).

Supported population anticipates the persons without personal income of any kind, or with unsubstantial resources and therefore supported by parents, relatives or other persons, including legal persons.

Persons working abroad are the persons that for less than a year work abroad, for foreign employer or independently. These persons provided no data on their occupation abroad or on the contingent occupation before leaving the home country and they may not be categorized by certain socioeconomic parameters (occupation, socioeconomic status, etc.).

Members of families of persons working abroad are those persons who do not work abroad, however they stay there for less than a year as members of the families of persons working abroad.

Agricultural population is consisted of the persons who are by occupation: (qualified) workers in agriculture, fishing and forestry (market producers), farmers (producers for own needs) and other workers employed in agriculture, fishing, etc., pursuant to the International Standard Classification of Occupations, ISCO-88. Also included are the persons supported by this category.

Active agricultural population anticipates the persons aged 15 and over, with the occupations above mentioned, who are employed or individually engaged (at their own, family or other holdings) and who in this way provide for living support.

Individual agricultural workers (farmers) are persons aged 15 and over, who individually work at their own or other agricultural holdings.

Supported agricultural population comprises the persons with no personal income or with not sufficient income, who are therefore supported by persons with agricultural occupation.

Household is every family or other community of persons who live together and jointly spend their income for living support (dwelling, food, etc.), regardless the fact whether all the members permanently stay at the place where the household is situated or some members stay at some other place, or abroad, due to work, education or other reasons.

Family is a close family community, consisted of a married couple or parents (single or both) and their children. Extra-marital communities (with or without children) are also considered as families.

Live born is a child that showed the signs of life (breathing and heart beat) after birth.

Stillborn is a child born showing no life signs, provided that pregnancy lasted 28 weeks minimum.

Death causes. The data on death causes are classified according to the International classification of diseases, injuries and death causes (Revision 10, in use since 1997).

EMPLOYMENT AND EARNINGS

Sources and methods of data collection

The data on the employed in enterprise, cooperatives, institutions and organizations were collected on the basis of a regular survey, i.e. the Semiannual report on the employed and their salaries and wages (*RAD-1P*) and through the Survey supplementary to the semiannual report on the employed and their salaries and wages, which provided the data on the number of employed in small-size enterprise (up to 50 employed) that were not covered by regular semiannual survey.

The data on private entrepreneurs and the persons individually running business and on their employees were collected through the regular semiannual survey, *RAD-15*, provided by the Health Insurance Office of the Republic of Serbia.

The annual average was calculated as the arithmetical mean value of the number of the employed persons as of 31 March and of 30 September.

The data on employment and unemployed persons are obtained from the National Employment Service.

Coverage

The semiannual survey of employment and salaries and wages covers enterprise, institutions and other organizations. The survey does not cover: foreign citizens employed in the Republic of Serbia, the citizens of the Republic of Serbia employed with international representation offices in the Republic of Serbia, the employed that are doing military service, the employed on non-paid leave for one year or several years, active military officers and civilians employed with the Army and the employees of the interior bodies. In executing semiannual reporting, organization - territory principle of observation is implemented, i.e. municipality is regarded as basic territorial unit. Therefore, as a reporting unit we anticipate every economic association or institution with their business units at the territory of the municipality where the head office is seated and these units are engaged in the same principal activity. The business units with the registered main or principal activity other than of the head office (of economic association) or institution are considered as separate reporting units, even though they are situated on the territory of the municipality where the head office of the respective economic association / institution is seated.

Also, as a separate reporting unit we consider any business unit that is situated out of the municipality where the head office of the corporate economic association or institution is found.

The semiannual survey on private entrepreneurs, persons that individually run business and their employees, covers only the employed persons that are registered with the Health insurance office of the Republic of Serbia.

The data on unemployed persons cover only those persons registered with the National Employment Service.

Definitions

The term '**employed**' cover all the persons that have signed employment contract with enterprise or institutions (management is also included here), or with private entrepreneurs, regardless the fact whether permanent or casual employment was contracted and whether these are full-time or part-time jobs.

The term 'employed' does not cover households' members rendering assistance at the holding, shop or economic association run by another household member, or the persons serving punishments and casually hired cooperatives.

Sources and methods of data collection

The data on average salaries and wages were collected pursuant to the regular monthly communications on the number of employed and salaries and wages (*RAD-1*).

Coverage

Enterprise, institutions, cooperatives and organizations of all ownership types and their composite units all submit monthly communications on the number of employment and salaries and wages, according to organization and territory principle of municipality level.

Definitions

Pursuant to Article 105, the Act on labor, **salaries and wages** comprise remuneration including taxes and contributions that are paid out of earnings that employed acquired for the work executed and the time spent as office hours; then extra remuneration and other payments (excluding compensations for commuting to work, allowances for business trips – domestic and abroad, retirement compensations, solidarity aid, jubilee awards, compensations of undertaking costs and compensations for damages due to injury at work or professional disease).

BUDGET AND RESOURCES

Sources and methods of data collection

Data on budgetary revenues and expenditures are collected and proceeded by the Ministry of Finance – Treasury Administration.

Coverage

Data on budgetary revenues and expenditures are related to the financial statement data of budget of all cities and municipalities that create the local government. All budgetary beneficiaries which are mainly financed from the local government budget resources are covered.

Definitions

Total budgetary revenues consist of current (tax and non-tax) revenues, receipts from selling non-financial assets, and receipts from borrowing and selling financial assets. Receipts from the sales of non-financial assets consist of income acquired through the sales of capital goods (government owned buildings and structures, stocks and land) and capital transfers from non-government organizations. Budgetary

revenues are used to cover budgetary expenditures. Current operating costs of budgetary beneficiaries are financed by current revenues. Budgetary expenditures also comprise purchase of non-financial assets, debt repayment and purchase of financial assets.

BUDGET BENEFICIARIES EXPENDITURES

Sources and methods of data collection

The data on budget beneficiaries are collected through the regular statistical survey, "Complex annual survey of budget beneficiaries", (KGI-03), which is carried out pursuant to financial statements and other documents.

Coverage

The survey *KGI-03* comprises the data on the number of employees and on the income and expenditure of budget beneficiaries. The data are shown according to the Classification of activities.

Definitions

Budget beneficiaries' expenditures include the remuneration for employees, taxes, operating expenses, fees and fines, donations, subsidies, grants, welfare from the budget, payments to NOGs, incurred interests, amortization costs and purchase of non-financial assets.

INVESTMENTS

Sources and methods of data collection

The data on investments in fixed assets are collected from all legal persons domestically, by the regular annual survey "Investments in fixed assets" (*INV-01*) and the same data are relative to all ownership types (social, private, cooperatives, mixed and state property).

Coverage

The data on realized investments in new assets are given at current prices, by technical structure (construction works, equipment and other) and by the type of constructions (new facilities, reconstructions, modernization, super-structures, extensions or replacements of the existing facilities) and by activities. They are classified by investments' destination and location (kind of activity principle). Covered are all legal persons, except those classified as small-size legal

persons, pursuant to Article 7, the Act on accounting and auditing.

Definitions

Realized investments represent the value of effectively carried out constructions, executions or purchase of new objects, equipment and other, no matter whether these investments were accomplished and paid up. The same investments are classified according to destination of investments (kind of activity principle).

PRICES

Sources and methods of data collection

The retail prices of agricultural and industrial produce and the prices of services that are regularly surveyed each month are estimated by statistical institutions of selected towns. The prices of industrial (foodstuffs and non-food) products and the prices of services are surveyed monthly. For each product listed, maximum eight prices are noted.

The prices of agricultural products are surveyed twice a month, generally in 3 to 5 stores and in market places (1 to 5 markets in a town). The average monthly price in a town is estimated for each item and service kind through non-weighted arithmetical mean value of several surveyed prices. The average annual prices for industrial produce and services are estimated through non-weighted arithmetical mean value of monthly prices and for agricultural produce – by weighting monthly prices of fresh vegetables and fruit with weights that present the quantity structure of the products sold in the respective month.

Coverage

Retail prices are surveyed in 15 towns (10 of the central Serbia and 5 of Vojvodina) and they relate to about 470 products and services (about 145 foodstuff produce, 245 industrial non-food products and about 80 kinds of services).

Definitions

Retail prices are those prices that retail shops, individual producers and service providers apply in selling products and rendering services to end users. The prices include the retail trade turnover tax for the products that are subject to tax payments.

AGRICULTURE

CROP PRODUCTION

Sources and methods of data collection

The data on agricultural enterprise and cooperatives are collected through regular annual surveys of the land sown in spring, *PO-22*, the returns of early crops, *PO-32* and the returns of late crops, *PO-33*. The data are provided according to accounting and other records. The data on family holdings are obtained from statistical estimates. About 1250 estimators supply the respective data for about 4000 estimated areas (on the territory of the central Serbia and Vojvodina), which as a rule include one or more cadastral municipalities. Mainly statistical estimators are the successful agricultural producers who are well familiar with local developments. In their activities, these statistical estimators rely on recent cadastre data, the estimates of previous years, the information from agricultural producers and professionals, their own observations and on other sources.

Coverage

Since the statistics of land areas and yields are based on the overall cadastre, the data comprise the total funds and the production of agricultural holdings, as well as other production (non-agricultural households, gardens in urban areas, etc.)

Definitions

Utilized agricultural area is land area utilized for agricultural production. Utilized agricultural area includes: arable land and kitchen gardens, orchards, vineyards, meadows and pastures.

Arable areas are the land areas used for field crop production. Here also included is the land that is uncultivated, left 'to recover', as well as vine and fruit-tree nurseries and clover and alfalfa fields. However this publication does not include the data on uncultivated land areas and nurseries, which is the difference to 'arable fields and gardens – total'.

Yielding fruit trees and vines are those that may give yields, regardless the fact whether actually they gave yields or not.

More detailed methodological explanations of the crop production statistics are found in *the Methodological papers*, volume no 211, published by the FSO.

LIVESTOCK BREEDING

Sources and methods of data collection

The data on the number of livestock in agricultural enterprise and cooperatives are collected in the regular Annual survey of livestock breeding, *PO-51-2a* and in the annual Livestock sample survey, *PO-51-2*; the data are compiled relative to private holdings and households. The survey sample is a two-stage stratified sample and it covers about 1% private holdings.

Coverage

The data cover the livestock fund in agricultural organizations, private holdings and households.

More detailed methodological explanations about the collection of data on livestock are presented in the *Methodological papers*, volume no 358, published by the FSO and in the publication of the SORS – *Methods and standards*, volume no 11.

FORESTRY

Sources and methods of data collection

The data of forestry statistics are collected in regular annual surveys and are based on the existing programs and records of forests holding and management. *ŠUM-21*, the annual survey of the exploitation of public forests, *ŠUM-23*, the annual survey of private forests exploitation and *ŠUM-41*, the annual report on forestation and forests growing - are all provided by *Srbijašume*, the public forests administration company, as well as by other organizations in charge of forests management (national parks, cooperatives, hunting organizations, etc.)

Definitions

Under the term **forest** we assume a land area over 5 acres overgrown with forest trees, regardless the fact it is of economic significance, has protection function or is envisaged for special purposes.

Forestation is all artificial forestation, by sowing or planting, either to re-grow forests on wasteland (forestation 'in forests') or to grow new forests ('new' forestation).

Forests felling relates to the gross mass of felled timber, measured at stumps.

Technical wood is the wood that is due to its physical and technical properties envisaged for technical and industrial purposes.

WATER AND SANITATION SERVICES

Sources and methods of data collection

Data on public water supply and public sewerage are obtained by means of regular annual reports from public utility, enterprise and municipal local offices responsible for public water supply and sewerage management in surveyed settlements. Data are collected annually, starting from 2005. Reports are based on records and documentation, and partly on estimates.

Coverage

The data on water usage in settlements enterprise (households, institutions, industry, agriculture, etc.) are collected from enterprise that distribute water and/or manage supply systems and from municipal local offices that are in charge of public water supply. Excluded is individual water supply (household supply), used exclusively by individual households or household groups.

The data on waste and purified water are collected from organizations responsible for managing public sewerage system.

Definitions

Water capture anticipates public water supply with water from different sources, using underground, spring and surface water.

Supplied water is all directly captured and provided water quantities that public supply system distributes to users (households, enterprise, institutions, etc.). The supplied quantities are determined by water meters. Otherwise the calculations are made as provided by regulations for certain activity.

Wastewater is water that after use is anticipated as wastewater and transported to purification plant, or that is discharged (to underground or surface water).

Wastewater quantities do not include atmospheric water. Wastewater quantities are measured by water meters or estimated according to defined production standards.

To purify waste, i.e. polluted used water means to eliminate from water, to an acceptable degree, all hazardous matters and radioactive substances that appeared, and so make water safe for use.

CONSTRUCTION

Sources and methods of data collection

Annual survey of construction works (*GRADJ -11*), Monthly report on construction permits (*GRADJ -10*) and Annual report on demolished housing constructions and dwelling adaptations (*GRADJ -71*).

Coverage

Annual survey of construction works covers all construction works conducted by legal and physical entities engaged in construction activity, section D-Construction, as well as legal entities not classified into construction activity, but that comprise units engaged in construction. The works carried out by sole proprietors are taken over from the reports on construction permits.

Construction works value anticipates all construction materials applied and labor force used. The value does not include the costs of land, project design, supervision and VAT. The value of works relate to undertakings in reference year, i.e. accomplished and unaccomplished constructions. The value of works conducted by contractors that are legal entities is provided on the basis of annual balance statements, and the value of works undertaken by sole proprietors is taken over from the reports on construction permits. The works executed were presented by territory where construction sites are found and not by territory, i.e. place where contractor's head office is situated.

Annual report on demolished housing constructions and dwelling adaptations cover demolished housing constructions, as well as buildings with one or more apartments adapted into non-residential premises. Reporting units are respective administrative authorities, as well as enterprise handling documentation on demolished constructions.

Definitions

Construction anticipates structures on the ground, any underground and over-ground construction, as well as hydro-technical structures (water-works), for which construction works are performed, and which are made of construction material, built-in finished products and parts.

Dwelling is any residential construction unit intended for habitation, consisting of one or more rooms with necessary auxiliary spaces (kitchen, bathroom, lobby, pantry, toilet, etc.) or without auxiliary spaces, and with one or more separate entrances.

More detailed methodological explanations on construction statistics are found in the SORS edition Methodologies and standards, Annual survey of construction works, volume 21/2007 and Monthly report on construction permits, volume 22/2007.

TRADE

SALES AND PURCHASE OF AGRICULTURAL, FORESTRY AND FISHING PRODUCE

Sources and methods of data collection

The data on the sales and purchase of the products of agriculture, forestry and fishing are collected in the Monthly survey of the turnover of produce of agricultural enterprise and cooperatives (*PO-TRG-33*) and in the Monthly survey of purchase of agricultural produce from individual producers (*TRG-31*). The sources here are the payment balances and other documents provided by the respective enterprise, cooperatives and other organizations.

Coverage

The purchase and sales of agricultural, forestry and fishing produce include the sales of the own production range of enterprise and cooperatives and the purchase from family households that authorized organizations make for further sales and processing.

Definitions

Under the term 'sold and purchased volumes' we anticipate the turnover, i.e. the delivery of agricultural produce of the production range of enterprise and cooperatives, as well as the directly purchased volumes of agricultural goods from family households for further sales and processing.

TOURIST TRADE

Sources and methods of data collection

The data on tourist arrivals and overnight stays are presented according to regular survey: the Monthly survey of arrivals and overnight stays in tourist resorts (*TU-11*), where accommodation services are rendered.

Coverage

The Monthly survey of tourist trade statistics covers all catering and other organizations offering accommodation (boarding) services. However, the coverage of households rendering accommodation (boarding) services may not be considered as full since certain households provide accommodation (boarding) services without having obtained license from the respective local government bodies and therefore are not included by the survey. Also, some households do not provide data for all tourist customers.

Definitions

A **tourist** is each person who makes at least one overnight stay at a tourist resort or other boarding facility, in the place other than his / her usual place of residence.

Tourists are registered in the place or resort where they stay. In the case of changing the place, they are again registered i.e. double registered.

TRANSPORT AND COMMUNICATIONS

Sources and methods of data collection

The data on highway and regional roads are provided from the Roads Directorate and the data on local roads from the respective municipal bodies, according to regular annual surveys.

"Srbija" PTT co. and "TELEKOM SRBIJA", Joint stock co. provide the data on PTT traffic, on the basis of regular annual statistical surveys.

The data on registered road motor and articulated vehicles (trailers) were obtained from the data files of registered vehicles that are maintained with the Ministry of Interior of Serbia.

Coverage

The funds and PTT traffic relate to the public PTT traffic carried out under the organization of "Srbija" PTT co. and "TELEKOM SRBIJA", Joint stock co.

Telephone subscribers comprise the active lines of all legal entities and physical persons that PTT own and that are the property of subscribers.

Covered are all registered vehicles except the vehicles of the Serbian army, diplomatic and consular representation offices and the vehicles bearing temporary registration plates.

Definitions

PTT mailing and parcel traffic comprise only dispatches in domestic and dispatches and receipts in international traffic. The data on letter mails include printed items, test reports, business documents, dispatches for the blind and air mailings. We do not present the turnover of newspapers and magazines by municipalities, as these dispatches are registered only in the places where editorial boards have their seats and they are received as letter mails.

EDUCATION

Sources and methods of data collection

The data on primary and secondary education are compiled by the way of regular surveys after the school year end. These are: Annual survey of regular primary schools at school year end (*ŠOR-K*), Annual survey of regular secondary schools at school year end (*ŠSR-K*), Annual survey of special primary schools (*ŠSO-K*) and special secondary schools (*ŠSS-K*) and Annual survey of adult education primary schools (*ŠOO-K*).

The data on the registered university students are compiled through regular annual survey of registered students (*ŠV-20*) and the data on graduate students – through regular annual surveys of graduate students (*ŠV-50*). The survey of registered (enrolled) students relates to the data of winter term registration (in academic year) and the survey of graduate students relates to the respective calendar year.

The data on pre-school institutions are obtained through regular annual survey of pre-school institutions (*PŠV*) and the data on students' boarding houses are provided by the regular annual survey of students' boarding houses (*ŠD*).

Coverage

The data on primary education include regular incomplete (four-grade, five-grade, six-grade) and complete (eight-grade) primary schools. Regular secondary schools may be high schools, art schools or secondary schools of vocational education and training (VET).

Special schools include individual primary and secondary schools and special forms for the children of slow mental development within regular primary and secondary schools. Adult education schools include primary schools and forms for adults within regular primary schools. Relative to the adult education schools, under the column 'completed educational

requirements', i.e. 'completed primary schooling' covered are the adults that having passed the examinations with regular primary schools completed schooling pursuant to the study program (curriculum) for adults.

Pre-schools include kindergartens and the forms of pre-school children.

Definitions

In the statistics of education, under the term **schools** we anticipate organizations or composite units that provide teaching of certain kind, following the defined study program and curriculum.

CULTURE

Sources and methods of data collection

The data on cinemas are compiled annually in the regular statistical survey on cinemas (*FILM-1*).

Definitions

A **cinema** is a hall or open-air theater equipped and envisaged for public film projections, regardless the fact it is an independent organization or a composite unit of some other organization. Included are regular cinemas (in permanently occupied halls), open-air cinema theaters and traveling cinemas.

Cinema performance is a public film projection (feature film projection) that last for about two hours.

PUBLIC HEALTH

Sources and methods of data collection

The collection of statistical data from health section is obligation of the Institute of Public Health of Serbia "Dr Milan Jovanovic Batut".

Data on health organizations or organizational units, employed persons and activities are collected by annual reports for certain types of health services.

Coverage

Data published in this chapter have been gathered from health care institutions in the Republic of Serbia (excluding data for Kosovo and Metohia) included in the Health Institutions Network Plan. Figures on staff is shown as of 31 December.

SOCIAL WELFARE

Sources and methods of data collection

The data on minor and grownup persons who are the beneficiaries of social welfare are collected by the way of the annual survey of minor beneficiaries and forms of social welfare (SZ-1a) and the annual survey of grownup beneficiaries and forms of social welfare (SZ-1B).

Coverage

The regular statistical surveys cover all social welfare centers, social welfare services within municipal assemblies and also inter-municipal centers on the territory of the Republic of Serbia.

Definitions

A **social welfare beneficiary** is every person that is registered in order to solve the social case and the subject case is processed by the social welfare center or by the respective professional team of the municipal assembly. Under the terms of **form, measure and service of social welfare** we anticipate any case of social welfare service rendered pursuant to law, municipal acts and the respective provisions of the family law.

JUSTICE ADMINISTRATION

Sources and methods of data collection

The data on grown up and minor persons sentenced by absolute decrees are compiled from the courts of general jurisdiction, by the way of individual statistical questionnaire.

Coverage

Covered are all grownup persons, i.e. minor persons that were declared guilty and that were rendered sentences, which the courts of general jurisdiction acknowledged as decrees absolute in the respective year.

Definitions

A **grownup person sentenced by decree absolute** is a person aged over 18 and a **minor person sentenced by decree absolute** is a person aged between 14 and 18 who for the deed committed and pursuant to the penalty code are sentenced by the court of general jurisdiction.

SUMMARY OF PUBLISHED DATA BY MUNICIPALITIES

Here listed are the volumes of "Municipal Statistics" and "Bulletins" that comprise the published data by municipalities.

MUNICIPAL STATISTICS

Complex publications on municipalities

For 1964 and 1965

For 1965 and 1966

Social and political system

Deputies (committee members): 37, 43, 59

Delegations and delegates: 109

Self-management bodies: 53, 75, 92

Population

Population number: 30, 40

Vital statistics: 17, 30, 39, 51, 66, 70, 81, 90, 98, 105, 110, 118, 125, 129, 131, 135, 137, 141, 148

Death causes: 105

Employment

Employees: 4, 13, 22, 49, 73, 74, 84, 95, 122

Students of qualified workers schools: 4, 49, 73, 74, 84

Examinations for qualified and highly qualified workers: 13, 49, 73, 74, 84, 95

Persons seeking employment: 49, 73, 84, 95, 122

National income

National income: 8, 25, 28, 46, 55, 65, 77, 87, 91, 100

Entrepreneurs

Census of entrepreneurs: 155

Agriculture

Areas and yields: 6, 12, 24, 33, 36, 44, 45, 56, 62, 64, 68, 69, 78, 79, 80, 86, 89, 93, 96, 97, 101, 108, 112, 113

Livestock: 1, 6, 8, 11, 16, 33, 103, 111

Cooperatives: 8, 24, 44, 52, 64, 78, 86

Private agricultural holdings: 27

Statistical estimators: 11

Tractors in agriculture: 115, 126, 133, 139, 143, 147, 150, 157, 176

Agricultural machines and tools: 16, 161, 167, 170, 174

Forestry

Forests: 10, 16, 33

Forestation: 1, 20

Craftsmen services

Craftsmen shops: 18

Craftsmen – census data: 120, 121

Construction

Construction industry and housing construction: 3, 19, 31, 42, 50, 57, 67, 76, 85, 99, 106, 114, 117, 123, 128, 138, 142, 145, 146, 149, 153, 154

School buildings: 42, 57, 67, 76, 85, 99, 106, 114, 117, 123, 128, 130, 136, 142, 145, 146, 149, 153, 154, 156

Construction industry: 160, 162, 164, 165, 166, 169, 171, 172, 173, 175, 177

Transport

Motor vehicles: 7, 14, 29, 48, 54, 61, 72, 83, 94

Motor vehicles drivers: 61, 83, 94

Traffic accidents: 61, 72, 83, 94

Trade

Capacities and turnover of retail trade: 9, 34, 41, 58, 102, 116, 124, 132, 140, 144, 151, 152, 159

Purchase of agricultural produce: 104, 134

Employed in trade: 34, 21

Investments

Investments: 60, 71, 82, 107

Social activities

Social activities expenditure: 23, 55, 65, 77, 87, 91

Number of employment: 23

Education

Primary school children coverage: 119

Pupils: 15, 63, 118

Students: 2, 63

Grade point average: 35

Subjects share in general curriculum: 35

School buildings: 5

School economy: 15

Culture

Cinemas: 15, 32, 47, 88, 127

Art clubs: 32

Radio and TV subscribers: 15, 32, 127

Public libraries: 32, 88, 127, 254

Adult education centers: 32

Physical education: 15, 88

Justice administration

Sentenced persons: 47

BULLETINS

Social and political system

Elections: 183, 226, 286

Local communities: 67, 84, 116, 191, 237, 263

Population

Population number: 31, 33, 90, 96, 104, 126, 194, 195, 205, 206, 251, 266, 268, 322

Vital statistics: 34, 37, 143, 161, 171, 173, 187, 200, 230, 236, 246, 285

Contracted marriages and divorces: 175, 202

Census of population, households, dwellings and agricultural holdings:

 Preliminary results, by municipalities and settlements of RS, as of 31/03/1991: 338

 Preliminary results, by municipalities and local communities of RS, as of 31/03/1991: 339

Refugees in the Republic of Serbia, holders of Refugee ID card: 368

Preliminary census results, by municipalities and settlements of RS, 2002: 422

Educational attainment, occupation and migration features, 1991 census: 434

Employment

Employees: 32, 126, 303, 306, 307, 308

National income

Gross material (social) product and national income: 186, 190, 204, 220, 235, 280, 281, 311, 315,
317, 344, 351, 363, 367

Organizations and communities: 229, 248

Agriculture

Households: 207

Areas and yields: 29

Livestock: 100

Forestry

Forests: 218

Construction

Construction industry and housing construction: 43, 45, 57, 71, 81, 112, 124, 185, 424, 430
