Notes: The indices published in this communication are based on the Monthly Survey of Retail Trade (TRG-10). Since 2009, all big and middle-sized enterprises, registered in the sections 50 and 52 of the Classification of Activities have been selected in the sample, while small enterprises have been drawn by random sample method. The sample also involves certain number of enterprises registered in other sections of activities, but performing the retail trade activity.

The turnover in retail trade includes VAT.

The turnover indices at constant prices have been obtained by deflating the indices at current prices by the corresponding indices of retail prices, electricity excluded.

All published indices ought to be regarded as preliminary results, meaning that some corrections may appear on the basis of the obtained results in the quarterly statistical survey – the Quarterly Survey of Retail Trade (TRG-16), which are published as a separate communication.

Seasonally adjusted retail trade turnover indices at constant prices are published in “Monthly statistical review”, from the number 3/2008.
