|--|-------|-------|-------|-------|-------|-------|

¹⁾ Starting from 1999 the Statistical Office of the Republic of Serbia has not at disposal and may not provide available certain data relative to AP Kosovo and Metohia and therefore these data are not included in the coverage for the Republic of Serbia (total).

Note: In the process of harmonization with the EU standards, the Statistical Office of the Republic of Serbia has started from 2007 to calculate and publish Consumer price index pursuant to COICOP classification, which is assumed as the basic measure of inflation in Europe. Therefore in 2010 SORS will publish Retail prices index and Consumer price index on the overall level only. From 2011 the creation of Retail price index and Consumer price index shall be terminated.
