Fish (rivers and lakes)	137	245	258,5	189,9	200,0	277,8	313,3

Total turnover value of agricultural products on green-markets in the Republic of Serbia in the first half of 2010 decreased by 1.2% at current prices and by 3.6% at constant prices, relative to the same period 2009.

Notes:

Data published in this communication are collected from the regular statistical survey "Monthly report on turnover of agricultural products on green-markets". The report is provided by public and other enterprises that offer services related to renting selling space for green-markets and for other market services. Sale of agricultural products on green-markets includes direct sale performed by individual agricultural producers to final consumers, on organized (green or so-called peasant-provisory) markets. Turnover that is performed on green-markets by enterprises (via their retail trade shops) and individual trade shops is not considered to be turnover on green-markets and is not presented in this Communication. Values are expressed in dinars (RSD).

Starting from 1999 the Statistical Office of the Republic of Serbia has not at disposal and may not provide available certain data relative to AP Kosovo and Metohia and therefore these data are not included in the coverage for the Republic of Serbia (total).
