Area sown with wheat in autumn 2010

Notes

Data on sown areas in autumn, as of November 30th 2010 are obtained by reports of enterprises and cooperatives, while estimations for family holdings are provided by statistical estimators.

In the Republic of Serbia, according to these data and compared to the previous year, until the end of November, areas sown with wheat, barley, rape seed, oats and lucerne decreased by 0.6%, 3.1%, 19.8%, 2.4% and 5.1%, respectively, while area sown with clover increased by 13.0%. Compared to ten-year average (2000-2009), areas sown with wheat decreased by 16.2%.

Enterprises and cooperatives sown with wheat 74 thousand hectares, which is a decrease of 18.0%, compared to the previous year, while private holdings sown 406 thousand hectares, which represents an increase of 3.4% compared to autumn 2009.

Final data on areas sown in autumn will be available at the beginning of January 2011.
