(3) Turnover by enterprise size.....	14
(4) Gross value added by enterprise size.....	15
Conclusion	15

Enterprises in the Republic of Serbia, by size, 2010

Methodological explanations

Considering the increasing number of users and taking efforts to harmonize its activities with international standards and recommendations, the Statistical Office of the Republic of Serbia continually publish the selected macroeconomic indicators for enterprises, by their size. The survey covers non-financial institutional sector according to SNA methodology, based on administrative data source – financial statements of enterprises (starting from 2009, processed by the Serbian Business Registers Agency).

Processing results of annual financial statements for enterprises and cooperatives on the territory of the Republic of Serbia are presented in this publication **classified as micro, small, medium and large enterprises**. From this point of view, the following indicators have been monitored: (1) **number of enterprises**, (2) **number of employees**, (3) **turnover** and (4) **gross value added**. The mentioned features are presented by enterprise size determined, pursuant to international recommendations, only according to number of employees, in the following way: 0-9 (micro), 10-49 (small), 50-249 (medium), 250 and over (large). It is important to note that, on the other hand, in the publications of institutions authorized to compile and process financial statements (previously the National Bank of Serbia and presently the Serbian Business Registers Agency) three criteria have been applied for classification, i.e. for determining enterprise size, in compliance with the Law on Accounting and Auditing.

In accordance with the new territorial distribution and the Classification of Activities (2010), from the territorial point of view the data are presented up to the level of region – NSTU 2 – Nomenclature of statistical territorial units, and regarding the activities, on the level of sections of the Classification of Activities (2010):

- A Agriculture, forestry and fishing
- B Mining and quarrying
- C Manufacturing
- D Electricity, gas and steam supply
- E Water supply; sewerage, waste management and remediation activities
- F Construction
- G Wholesale and retail trade; repair of motor vehicles and motorcycles
- H Transportation and storage
- I Accommodation and food service activities
- J Information and communication
- K Financial and insurance activities
- L Real estate activities
- M Professional, scientific and technical activities
- N Administrative and support service activities
- O Public administration and defence; compulsory social security
- P Education
- Q Human health and social work activities
- R Art, entertainment and recreation
- S Other service activities
- T Activities of households as employers
- U Activities of extraterritorial organizations and bodies

The features are defined as follows:

- *Number of employees* - average calculated as of the end of each month in the reporting year;
- *Turnover* – receipts from sales (of goods, and products and services);
- *Gross value added* (at basic prices) - difference between output and intermediate consumption.

According to enterprise size, in 2010 Gross value added in the Republic of Serbia was distributed as follows: micro – 10.7%, small – 18.3%, medium – 20.5% and large enterprises – 50.5%.

For the enterprises in Serbia – north, the distribution of Gross value added was as follows: micro – 10.8%, small – 18.3%, medium – 19.7% and large – 51.2%.

Regarding enterprises in Serbia – south, the data are the following: micro – 10.6%, small – 18.4%, medium – 23.0% and large – 48.0%.

Presented by activities (CA, 2010 sections), the most significant share in gross value added on the territory of the Republic of Serbia was realized by the enterprises dealing with manufacturing – 26.4%, wholesale and retail trade and repair of motor vehicles – 18.1%, information and communication – 8.6%, construction – 8.4%, transportation and storage – 8.2%, mining – 7.3%, etc.

Conclusion

Development strategy of small- and medium-sized enterprises and entrepreneurship is based on the professional analysis of the current situation, which is expected to provide adequate medium-term planning for the future development of this sector in Serbia. Naturally, we ought to observe the experience related to the promotion of small- and medium-sized enterprises and entrepreneurship in the countries in transition.

Small- and medium-sized enterprises are taken to be among the major forces of the economic development. They spur on private initiative and entrepreneur capacities, they are flexible and quickly adjustable to market changes, also they generate employment, induce more versatile economic activities, contribute to exports and trade, and simultaneously they stand for the main agent of competitive economy development.

According to overall analysis of progress of the SME sector in the Republic of Serbia in 2010, this sector apparently becomes an increasingly significant segment of economy in implementing structural reforms and it is particularly functional in reviving the overall growth and creating possibilities for new jobs.
