¹⁾ Base: the same period of 2009

In 2010, in the Republic of Serbia, total sale and purchase value of agricultural, forestry and fishing products, compared to 2009, increased by 21.2% at current prices and by 5.5% at constant prices. Value of sold products from own production of enterprises and cooperatives increased by 8.7% at current prices and decreased by 1.7% at constant prices and value of purchase from individual holdings increased by 33.2% at current prices and by 11.7% at constant prices.

Notes:

Data on sale and purchase of agricultural, forestry and fishing products are obtained from Monthly report on realized agricultural products from own production of agricultural enterprises and cooperatives (PO-TRG- 33) and from Monthly report on purchase of agricultural products from individual holdings (TRG-31). These reports also provide the data on quantities and values of agricultural products. Value of delivered products is calculated according to selling producers' prices and value of purchase is computed according to purchasing prices, which organizations pay to individual holdings, for taken products. Value of sale, i.e. purchase does not include the following: VAT, packaging, transportation costs, costs of keeping and storage, discounts, as well as the determined bonuses that producers get for delivered products. Values are expressed in thousand RSD. Indices at constant prices are calculated by deflating indices at current prices by the corresponding indices of producers' prices of agricultural products.

Starting from 1999 the Statistical Office of the Republic of Serbia has not at disposal and may not provide available certain data relative to AP Kosovo and Metohia and therefore these data are not included in the coverage for the Republic of Serbia (total).
