Total turnover value of agricultural products on green-markets in the Republic of Serbia in 2010, relative to 2009, increased by 5.5% at current prices and decreased by 16.2% at constant prices.

#### Notes:

Data published in this communication are collected from the regular statistical survey "Monthly report on turnover of agricultural products on green-markets". The report is provided by public and other enterprises that offer services related to renting selling space for green-markets and for other market services. Sale of agricultural products on green-markets includes direct sale performed by individual agricultural producers to final consumers, on organized (green or so-called peasant-provisory) markets. Turnover that is performed on green-markets by enterprises (via their retail trade shops) and individual trade shops is not considered to be turnover on green-markets and is not presented in this Communication. Values are expressed in thousand dinars (RSD).

Starting from 1999 the Statistical Office of the Republic of Serbia has not at disposal and may not provide available certain data relative to AP Kosovo and Metohia and therefore these data are not included in the coverage for the Republic of Serbia (total).
