

STATISTICAL RELEASE

LP11

Number 79 • Year LXI, 31/03/2011

Household Budget Survey

SERB 79 LP11 310311

Available budget and individual consumption of households in the Republic of Serbia, 2010

- Final results -

The data were obtained through Household Budget Survey, which has been conducted since 2003 according to international standards and recommendations of Eurostat, ILO and UN, thus providing international data comparability. The survey collects the data on income, expenditure and household consumption, i.e. the data on basic elements of individual consumption. Besides, the survey compiles also the data on some important living standard indicators (dwelling conditions, supply with durable consumer goods, etc.), as well as some basic data related to demographic, economic and social features of households.

In this survey, a two-stage stratified sample is applied, with enumeration districts as primary and households as secondary selection units. The basic geographic stratum are the territory of Central Serbia and AP Vojvodina. Every fifteen days, 200 households are interviewed, i.e. 4800 households annually.

Of the total number of households envisaged for interview in 2010 (4800 for the Republic of Serbia), the number of 4585 households (96%) was interviewed.

**Household income in money (structure),
Republic of Serbia, 2010**

- Regular salaries and wages
- Other income
- Pensions (old-age, family, disablement and other)
- Other social insurance receipts
- Income from agriculture, hunting and fishing
- External receipts
- Real estate related income
- Donations and awards
- Customer and investment credits
- Other receipts

**Individual consumption (structure),
Republic of Serbia, 2010**

- Food and non-alcoholic beverages
- Alcoholic drinks and tobacco
- Clothes and footwear
- Dwelling, water, electricity, gas and other fuels supply
- Home furniture, equipment and maintenance
- Health service
- Transport
- Communications
- Recreation and culture
- Education
- Restaurants and hotels
- Other goods and services

Available budget and and individual consumption in 2010
- Monthly Household average -

Methodological explanations

A survey unit is taken to be every single - or several – member household, selected according to the sample plan. A household is: a) a community of persons, whose members live and prepare food together and jointly spend the earned income and b) a single person, living, preparing food and spending the earned income on his/her own.

The survey applies the method of diary keeping (a household keeps a consumption diary for fifteen, i.e. sixteen days) regarding individual consumption of food and services and the interview method on the basis of questionnaires, where the reference period for durables is twelve months, for semi-durables, agriculture, hunting and fishing – three months, and for earnings – one month.

Available household budget comprises income in money and the money value of natural consumption and receipts in kind, which were available to households in the respective survey period.

Household income in money

- **Regular salaries and wages** cover the income from regular employment.
- **Other income comprises:** money receipts for overtime work, pursuant to purchase order, author's deed contract, etc.
- **Pensions (old-age, family, disablement and other)** cover the receipts pursuant to pension and disablement insurance and supplementary payments.
- **Other social insurance related receipts** include: social aid, supplements and other welfare receipts; receipts in cases of unemployment and temporary unemployment; alimentation and support; health insurance related receipts, disablement insurance related receipts and supplements; children allowances; student grants and remuneration, i.e. compensations for trade students.
- **Income from agriculture, hunting and fishing** includes earnings of households that are active in agriculture, hunting and fishing.
- **External receipts** include money donations and other external receipts.
- **Real estate related income** comprises room and flat rents, interests, dividends and sales related receipts (real estates and movables).
- **Donations and awards** comprise money donations, lottery related receipts, etc.
- **Customer and investment credits** refer to credits raised in last 12 months.
- **Other receipts** saving deposits raised, lending returns, decreased cash amounts kept in households, refunded nationalized estates, life insurance and real estate insurance premiums, etc.

Household receipts in kind

- **Earned receipts in kind** include food, clothes, footwear, household expenditures (electricity, phone, registration, car fuel) paid by employer, etc.
- **Natural consumption** comprises the value of products from own household production that are used for individual consumption (food, drinks, wood for heating, etc.)

Individual consumption of households is presented by the following groups of COICOP classification (Classification of individual consumption by purpose): Food and non-alcoholic beverages; Alcoholic drinks and tobacco; Clothes and footwear; Dwelling, water, electricity, gas and other fuels supply; Home furniture, equipment, appliances and maintenance; Health service; Transport; Communications; Recreation and culture; Education; Restaurants and hotels and Other goods and services.

The published data relate to available budget and individual consumption in 2010 and they present monthly average values by household, given in dinar amounts (RSD).

Starting from 1999 the Statistical Office of the Republic of Serbia has not at disposal and may not provide available certain data relative to AP Kosovo and Metohia and therefore these data are not included in the coverage for the Republic of Serbia (total).
