Cities and municipalities in the Republic of Serbia

- As of January 1st 2012 -

PREFACE

By launching the publication “Municipalities and regions of the Republic of Serbia, 2012”, the Statistical Office of the Republic of Serbia carries on to issue annual statistics on municipalities. Our decision to establish a publication that comprises the data of various aspects of social and economic development of Serbian municipalities, cities and regions came from our appreciation of the social requirements for an overall insight of the status and development of certain municipalities, cities and regions.

This publication, just as the previous volumes of the series, features about 1000 data for each municipality, city and region. Considering the contents, coverage and presentations, this is actually a complete statistical yearbook of municipalities.

In presenting the data we took into account the present organization of the Republic of Serbia and its administrative bodies. Territorial distribution is presented in accordance with the Regulation on Nomenclature of Statistical Territorial Units (“Official Gazette of RS”, No. 109/09 and 45/10).

A wider selection of the data presented by municipalities, cities and regions which this publication could not possibly comprise, could be found in certain volumes of the “Bulletin”, the summary of which can be found at the end of the publication. At the Statistical Office of the Republic of Serbia, in Belgrade head office and at its regional offices, we keep filed more detailed statistical data that were not published, however are available to the interested clients. The data are offered in printed and electronic form (series 1997-2011 available at SORS website).

Apart from the data of the SORS, the publication contains the data provided by the Ministry of Interior of the Republic of Serbia, Ministry of Finance and Economy, Republic Geodetic Authority of the Republic of Serbia, National Employment Service and Institute of Public Health of Serbia.

In order to provide an insight into the data of this publication for the wide range of users, the Statistical Office of the Republic of Serbia edited also a separate English version of the publication (“Municipalities and regions of the Republic of Serbia, 2012”).

“Municipalities and regions in the Republic of Serbia, 2012” Main principles of editing	15
1. GENERAL INFORMATION	
1.1. General data, 2011	17
2. SOCIAL SYSTEM	
2.1. Elections for delegates to assemblies of municipalities and towns, 2012 (Poll places, voters, electoral lists and candidates).....	22
2.2. Proposers, by number of elected delegates to assemblies of municipalities and towns, 2012	28
2.3. Delegates to assemblies of municipalities and towns, by sex and age, 2012	34
3. POPULATION	
3.1. Population by age and sex, according to 2011 Census	38
3.2. Population, by national or ethnic affiliation, according to 2011 Census	56
3.3. Vital events, 2011	64
3.4. Causes of death, 2011	68
3.5. Estimated number of population – as of June 30	76
3.6. Basic contingents and indicators of population of the Republic of Serbia, 2011	80
4. EMPLOYMENT AND SALARIES AND WAGES	
4.1. Employees, 2011 – annual average	84
4.2. Employees, by sections of activities, 2011.	88
4.3. Structure of employees, 2011	96
4.4. Unemployed – as of 31 December 2011	104
4.5. Average net salaries and wages per employee, January–December 2011	108
5. LOCAL GOVERNMENT BUDGET	
5.1. Budgetary receipts and revenues, 2011	112
5.2. Budgetary expenditures, 2011	116
6. BUDGET BENEFICIARIES EXPENDITURES	
6.1. Budgetary expenditures, 2011	120

7. INVESTMENTS	
7.1. Realized investments in new fixed assets, by type of construction and technical structure, 2011	125
7.2. Realized investments in new fixed assets, by activities, 2011	130
8. PRICES	
8.1. Average retail prices in towns, 2011	150
9. AGRICULTURE	
9.1.1. Utilized agricultural land, 2011	
Companies, cooperatives and family holdings - total.....	156
9.1.2. Utilized agricultural land, 2011 – family holdings	164
9.2. Production of wheat and maize, 2011	172
9.3. Production of industrial and vegetable crops, 2011	176
9.4. Production of fodder crops, 2011	180
9.5. Production of fruits and grapes, 2011	184
10. FORESTRY	
10.1. Afforested land and felled timber, 2011	188
11. WATER SUPPLY AND SEWERAGE	
11.1. Public water supply and waste water discharge, 2011	192
12. CONSTRUCTION	
12.1. Value of construction works done, 2011	196
12.2. Housing construction, 2011	200
12.3. Demolished dwellings, 2011	204
13. TRADE	
13.1. Sale and purchase of selected products of agriculture, forestry and fishing, 2011.....	207
14. TOURIST TRADE	
14.1. Tourism, 2011	211
14.2. Tourists and overnight stays, by tourist places, 2011	215
15. TRANSPORT AND COMMUNICATION	
15.1. Length of roads, 2011	217
15.2. Post activities and telecommunications, 2011	221
15.3. Registered road vehicles and trailers, 2011	226
16. EDUCATION	
16.1. Preschool institutions, 2011/2012 school year.....	231
16.2. Regular primary and secondary schools, 2010/2011	235
16.3. Special schools - primary and secondary, 2010/2011 school year.....	239
16.4. Higher schools and university faculties, 2010/2011 school year	243
16.5. Pupils' hostels and students' centers, 2011/2012 school year	245

17. CULTURE	
17.1. Cinemas, 2011	247
18. HUMAN HEALTH	
18.1. Medical doctors, dental practitioners and graduate pharmacists in public health, 2011	250
19. SOCIAL WORK	
19.1. Social welfare beneficiaries, 2011	254
20. JUSTICE ADMINISTRATION	
20.1. Sentenced adults and minors, by place of committing criminal offence and by type of criminal offence, 2011	259
Methodological explanations	265
Summary of published data, by municipalities	273
Editions of the Statistical Office of the Republic of Serbia	277

“Municipalities and regions in the Republic of Serbia, 2012” Main principles of editing

Distribution of material

The statistical material in this publication was presented following basically the same sequence as in the “Statistical Yearbook of Serbia”. Certain chapters of the Yearbook were excluded here: Geographical review, Climate and environment, National accounts, Individual consumption, Money, External trade, Catering, Research and development and International review.

Data sources

The statistical data presented here resulted from the accomplished programs of statistical surveys.

Included are also certain statistics that are in charge of the following institutions: Ministry of Finance and Economy, Republic Geodetic Authority of the Republic of Serbia, National Employment Service and Institute of Public Health of Serbia. In the tables containing these data, given are the full titles of the data sources.

Coverage

The data coverage, whole and partial, is explained in the methodological papers. The data are fully comparable by municipalities and the years of production, excluding the cases where methodological changes appear.

Methodological explanations

In a separate chapter of the publication, presented are the most required methodological explanations. The detailed methodological explanations can be found in the volumes of the edition “Methodologies and standards” (SORS), i.e. “Methodological papers” (FSO) or on the website of the Statistical Office of the Republic of Serbia.

Technique of presentation

As a rule, all the municipalities were covered in table presentations. In certain areas, where the phenomena observed are not characteristic of all municipalities, the municipalities not featuring the observed phenomena were excluded. In the case of City of Belgrade, majority of data were presented so as to cover all municipalities.

The municipalities were divided here into administrative districts and data on cities were presented separately. It is to be noted that certain cities did not use the opportunity to establish the city municipalities. In this yearbook, the territorial distribution was presented in compliance with the Regulation on Nomenclature of Statistical Territorial Units (“Official Gazette of RS”, No. 109/09 and 45/10).

Starting from 1999 the Statistical Office of the Republic of Serbia has not at disposal and may not provide available certain data relative to AP Kosovo and Metohija and therefore these data are not included in the coverage for the Republic of Serbia (total).

¹⁾ Annual average is calculated on the basis of two dates, as of 31 March and 30 September.

²⁾ Covered are employees in legal entities (companies, enterprises, institutions, cooperatives and other organizations) and unincorporated enterprises (persons performing activity independently) and their employees.

³⁾ Employed in small-size enterprise (up to 50 employees) are included. They are not included in regular semi-annual survey and are obtained as an estimate from the Questionnaire supplementing the semi-annual survey on the employed.

4-2. EMPLOYEES¹⁾, BY SECTIONS

Annual

Region Area City - Municipality	Total	Agriculture, forestry and fishing	Mining and quarrying	Manufac- turing	Electricity, gas, steam and air conditionin g supply	Water supply; sewerage, waste management and remediation activities	Constru- ction	Wholesale and retail trade; repair of motor vehicles and motorcycles	Transporta tion and storage	Accommod ation and food service activities

¹⁾ Covered are employees in companies, enterprises, institutions, cooperatives, organizations and small - size companies (up to 50 employees). They are not included in regular semi-annual survey and are obtained as an estimate from the Questionnaire supplementing the semi-annual survey on the employed.

²⁾ Annual average is calculated on the basis of two dates, as of 31 March and 30 September.

¹⁾ Total water supply is the sum of supplied water and losses in distribution, excluding water given to other users.

²⁾ Discharged wastewater is the sum of wastewater from municipalities with respective drainage system and estimated drained wastewater from municipalities w/o the subject system.

³⁾ Aggregated values for Belgrade municipalities: Čukarica, Stari grad, Savski Venac, Rakovica, Palilula, Novi Beograd, Surčin, Zemun, Zvezdara, Voždovac.

⁴⁾ Municipalities supplied with water abstracted from other municipality, either completely or partially.

⁵⁾ Municipalities that a part of abstracted water give to other municipalities.

⁶⁾ Public utility "Waterworks and sewerage" from Novi Sad also supplies water to consumers from the municipality of Sremski Karlovci.

¹¹⁾ DP "Drugi oktobar" Vršac also supplies consumers from the municipality of Bela Crkva.

¹⁾ Average number of overnight stays is calculated by dividing number of overnight stays by number of tourists. As tourists are registered in each place where they stay, in case of changing place, data have been repeated, i.e. duplicated. Therefore, average number of overnight stays, calculated in this way, is probably smaller than real one.

METHODOLOGICAL EXPLANATIONS

GENERAL INFORMATION

Sources and methods of data collection

The data on the total area of the Republic of Serbia, as well as the data on the area of regions, areas and municipalities were taken over from the Republic Geodetic Authority, as of January 1st, 2012. Since the new cadastre measurements are in process, the data on the area should be considered as provisional. The data on the number of cadastre municipalities were also taken over from the Republic Geodetic Authority.

The population estimates for 2011 were derived according to the population estimate as of 18/06/2010 and the data on natural and mechanical migrations in the second half of 2009 and the first half of 2011. The mechanical component of migrations covers the internal migrations only.

SOCIAL SYSTEM

ELECTIONS AND COMPOSITION OF MUNICIPAL AND CITY/TOWN ASSEMBLIES

Sources and methods of data collection

The data on the results of the elections for the delegates to municipal and city/town assemblies, as well as data on delegates from Central Serbia and AP Vojvodina were obtained from the municipal and city/town electoral boards by summarized reports for the level of municipality, i.e. city/town. The data on delegates from AP Kosovo and Metohija could not be compiled.

Coverage

The elections are carried on the whole territory of RS. The lists of voters include all citizens aged 18 and over.

The elections for delegates were held on 6/05/2012. Together with the data from these elections, processed were the data from elections for delegates in nine municipalities, in which the elections were held in 2009, i.e. 2010: Arandjelovac, Bor, Vrbas, Kovin, Kosjeric, Negotin, Odzaci, Zemun and Vozdovac. Moreover, included were all repeated elections from May 6th to June 29th 2012.

Definitions

Elections for delegates were conducted according to proportional system and each municipality/town presented one electoral unit in elections for delegates.

The candidates for delegates are pronounced by political parties, coalitions of parties, i.e. civil groups. The municipal and city/town assemblies are single-home institutions and the mandate of delegates lasts four years.

Pursuant to the amendment to the Local elections law from 2008, the presidents of municipalities and the mayors of cities shall be elected by delegates of municipal and city/town assemblies and the candidates are pronounced by political parties, coalitions of parties and civil groups with the majority of elected delegates for assemblies.

POPULATION

Sources and methods of data collection

The data on population for 2011 are shown according to 2011 Census of population, households and dwellings.

The population number estimate in mid-year (as of 30 June) is calculated on the basis of data of population census, data on population increase and data on internal migrations.

Data on births, deaths and contracted marriages are compiled and supplied by registrars and data on divorces by the courts of respective jurisdiction.

Coverage

The statistics of *births* cover all births (live and still births) in the respective year. The statistics of *deaths* covers all death cases. The statistics of *contracted marriages* covers the marriages that have been legally contracted, i.e. entered into the register of marriages. The statistics of *divorces* covers all legally divorced, dissolved, null and void made marriages.

According to the legal provisions on registers, the cases of births, deaths and contracted marriages are entered into registers kept for the region where the respective events took place, regardless of the fact whether this is the place of residence of the concerning

parties. When processed, the data are further re-classified according to place of residence and this is in compliance with the census conception of constant population.

It is to be noted that starting from 1999 the Statistical Office of the Republic of Serbia has not at disposal and may not provide available certain data relative to AP Kosovo and Metohija and therefore these data are not included in the coverage for the Republic of Serbia (total).

Definitions

Population For the purpose of determining the total number of population of a given area, it was in the 2011 Census that the concept of the "usual population" was used for the first time. According to this concept a person is considered to be a resident of the place in which he/she alone (in case of a one-person household) or with the members of his/her household spends most of the time, that is, the day/night rest, irrespective of where this person has his/her residence registered. Thus the total population of a certain place includes the persons who have lived in that place continuously for at least one year before the critical census moment, as well as the persons who have lived in that place for less than 12 months but with an intention to stay.

National or ethnic affiliation As in the previous censuses, in 2011 Census, the data on ethnic composition of the population were collected on the basis of free declaration of population. According to Article 47 of the Constitution of the Republic of Serbia, citizens are guaranteed absolute freedom regarding the declaration on their ethnicity. Moreover, the same article states that citizens are not obliged to declare themselves on their ethnicity. In such cases, the enumerator was obliged to write the following answer: "Did not declare".

For the children under the age of 15, the reply was provided by a parent, an adopter parent or a guardian.

Age In the tables of census data and vital statistics, the population was categorized by age i.e. (complete) living years. Each age group relates to complete years of age, e.g. the age group 0 – 4 comprises the children from the birth to the completed fifth year.

According to the data of age, several important population sub-sets are derived: pre-school children (aged below 7), primary school /compulsory education children (aged 7-14), working age population (aged 15 – 64), female fertile population (15 – 49).

Live born is a child that showed the signs of life (breathing and heart beat) after birth.

Stillborn is a child born showing no life signs, provided that pregnancy lasted longer than 28 weeks.

Death causes. The data on death causes are based on the concept of the main cause of death and it is defined as a disease or injury that caused the set of sick conditions which directly led to death, an accident or violence resulting in death.

EMPLOYMENT AND SALARIES AND WAGES

Employment

Sources and methods of data collection

The data on the employed in legal entities (companies, enterprises, institutions, cooperatives, and organizations) were collected on the basis of Semiannual report on the employed and their salaries and wages and through Survey supplementary to the semiannual report on the employed and their salaries and wages, which provided the assessment of the number of employed in small-size enterprise (up to 50 employed) that were not covered by regular semiannual survey.

Data on private unincorporated enterprises (persons that independently perform the activity – profession) and on their employees were collected through the regular semiannual survey, provided by the Republic Fund of Health Insurance.

The annual average was calculated as the arithmetical mean value of the number of the employed persons as of 31 March and of 30 September.

The data on employment and unemployed persons are obtained from the National Employment Service.

Coverage

The semiannual survey on employment and salaries and wages covers companies, enterprises, cooperatives, institutions and other organizations. The survey does not cover: foreign citizens employed in the Republic of Serbia, citizens of the Republic of Serbia employed with international representation offices in the Republic of Serbia, employed in the Ministry of Defence and in the Ministry of Interior. In implementing surveys on employment applied was organization - territory principle of observation, i.e. municipality was regarded as basic territorial unit. Therefore, as a reporting unit we anticipate every enterprise or institution with their business units at the territory of the municipality where the head office is seated and these units are engaged

in the same principal activity. Business units with the registered main or principal activity other than that of the head office of enterprise or institution are considered as separate reporting units, even though they are situated on the territory of the municipality where the head office of the respective enterprise / institution is seated.

Also, as a separate reporting unit we consider any business unit that is situated out of the municipality where the head office of the corporate enterprise or institution is found.

The semiannual survey on private unincorporated enterprises (persons that independently perform activity – profession) and their employees covers only the employed persons that are registered at the Republic Fund of Health Insurance.

The data on unemployed persons cover only those persons registered with the National Employment Service.

Definitions

The term *employed* in this survey comprises persons who entered into employment with an employer (business companies, enterprise, institution, organization and private entrepreneur–person performing occupation-activity independently), as well as employer himself in case of a private entrepreneur - person performing occupation-activity independently. The persons working under contract, performing temporary or occasional jobs are not considered as *employed*.

Salaries and wages

Sources and methods of data collection

The data on average salaries and wages were collected pursuant to regular monthly surveys on the number of employed and salaries and wages, and the data provided by the Ministry of Finance and Economy (Tax administration).

Coverage

The data on salaries and wages of the employed in companies, enterprises, institutions, cooperatives and other organizations (legal entities), of all ownership types, are collected by regular statistical survey *RAD-1*.

Since January 2009, coverage of observation units has been extended. When calculating average salaries and wages, besides those paid to the employed in legal

entities, also included are salaries and wages paid to employees in unincorporated enterprises (physical persons). Data on salaries and wages in unincorporated enterprises are taken over from the records of Tax administration.

Definitions

Pursuant to Article 105, the Act on labor, **salaries and wages** comprise remuneration including taxes and contributions that are paid out of earnings that employed acquired for the work executed and the time spent as office hours; then extra remuneration and other payments (excluding compensations for commuting to work, allowances for business trips – domestic and abroad, retirement compensations, solidarity aid, jubilee awards, compensations of undertaking costs and compensations for damages due to injury at work or professional disease).

LOCAL GOVERNMENT BUDGET

Sources and methods of data collection

Data on budgetary revenues and expenditures are collected and processed by the Ministry of Finance and Economy– Treasury Administration.

Coverage

Data on budgetary revenues and expenditures are related to statements of balance of budget of all cities and municipalities that create local government. Covered are all direct and indirect budgetary beneficiaries that are mainly financed from the local government funds.

Definitions

Total budgetary revenues consist of current (tax and non-tax) revenues, receipts from selling non-financial assets, and receipts from borrowing and selling financial assets. Receipts from the sales of non-financial assets cover only income acquired through the sales of capital goods (government-ownership buildings and structures, stocks and land) and capital transfers from non-government institutions. Budgetary revenues are used to cover budgetary expenditures. Regular operating costs of budgetary beneficiaries are financed by current revenues. Budgetary expenditures also comprise purchase of non-financial assets, credit repayment and purchase of financial assets.

BUDGET BENEFICIARIES EXPENDITURES

Sources and methods of data collection

The data on direct budget beneficiaries were collected through regular statistical survey, 'Budget beneficiaries - Complex annual survey', which is carried out pursuant to financial statements and other accounting documents. The data on indirect budget beneficiaries were taken over from the balance of payment received from the Treasury administration.

Coverage

Compiled are the data on revenues and expenditures of budgetary beneficiaries. The data are shown according to the Classification of Activities.

Definitions

Budget beneficiaries' expenditures include the remuneration for employees, taxes, operating expenses, fees and fines, current donations, subsidies and grants, welfare from the budget, payments to NOGs, repayment of interests and incurred credit costs, amortization costs and purchase of non-financial assets.

INVESTMENTS

Sources and methods of data collection

The data on investments in fixed assets are collected from all legal persons, by the regular annual survey „Investments in Fixed Assets”, and they refer to all ownership types.

Coverage

The data on realized investments in fixed assets are given at current prices, by technical structure (construction works, equipment and other) and by the type of constructions (new facilities, reconstructions, modernization, superstructures, extensions or replacements of existing facilities) and by activities. They are classified by investments' destination and location (pure activity principle). Covered are all legal persons, except those classified as small-size enterprises, pursuant to Article 7, the Act on accounting and auditing.

Definitions

Realized investments represent the value of effectively carried out constructions, executions or purchase of new objects, equipment and other, no matter whether these investments were accomplished and paid up. The same investments are classified according to destination of investments (pure activity principle).

PRICES

Sources and methods of data collection

The retail prices of agricultural and industrial products and the prices of services that are regularly processed each month are scanned by statistical institutions of selected towns. The prices of industrial (foodstuffs and non-food) products and the prices of services are scanned once per month at 3-10 places, depending on size of town. The prices of agricultural products are surveyed twice a month, generally in 3 to 5 stores and in market places (1 to 5 markets in a town).

Average monthly price for each item and service in a town is calculated by non-weighted geometric mean value of prices at several surveyed prices. Average annual prices for industrial products and services are calculated by non-weighted geometric mean value of monthly prices and for agricultural products by weighting monthly prices of fresh vegetables and fruit with weights that present the quantity structure of the products sold in the respective month.

Coverage

Retail prices are scanned in 15 towns (10 of the central Serbia and 5 of Vojvodina) and they relate to about 567 products and services.

Definitions

Retail prices are those prices at which retail shops, individual producers and service providers sell products and render services to end users. The prices include Value added tax.

AGRICULTURE

CROP PRODUCTION

Sources and methods of data collection

The data on agricultural enterprise and cooperatives are collected through regular annual surveys on land sown in spring, early crops yields, late crops yields. The data are provided according to accounting and other records. The data on family holdings are obtained from statistical estimates. About 1250 estimators supply the respective data for about 4000 estimated areas (on the territory of the central Serbia and Vojvodina), which as a rule include one or more cadastral municipalities. Mainly statistical estimators are successful agricultural producers who are well familiar with local

developments. In their activities, these statistical estimators rely on recent cadastre data, estimates of previous years, information from agricultural producers and professionals, their own observations and on other sources.

Coverage

Since the statistics of land areas and yields are based on the overall cadastre, the estimates cover total funds and production of agricultural holdings, as well as other production (non-agricultural households, gardens in urban areas, etc.)

Definitions

Utilized agricultural area is land area utilized for agricultural production. Utilized agricultural area includes: arable land and kitchen gardens, orchards, vineyards, meadows and pastures.

Arable areas are the land areas used for field crop production. Here also included is land that is left 'to recover', uncultivated, as well as vine and fruit-tree nurseries and clover and alfalfa fields. However this publication does not include data on uncultivated land areas and nurseries, which makes the difference to 'arable fields and gardens – total'.

Yielding fruit trees and vines are those that may give yields, regardless the fact whether actually they gave yields or not.

More detailed methodological explanations of crop production statistics could be found in *the Methodological papers*, volume no 211, published by the FSO.

FORESTRY

Sources and methods of data collection

The data of forestry statistics are collected by regular annual surveys and are based on the existing programs and records of forests management: *ŠUM-21* (Annual survey on exploitation of public forests), *ŠUM-23* (Annual survey on private forests exploitation) and *ŠUM-41* (Annual report on forestation and forests growing) for private and public forests, and *ŠUM-13* (Tree-annual survey on changes in forests' area) for public and private forests. These data are all provided by *Srbijašume* and *Vojvodinašume*, the public forests administration companies, as well as by other organizations in charge of forests management (national parks, cooperatives, etc.)

Definitions

Under the term **forest** we assume a land area over 5 acres overgrown with forest trees, regardless the fact it is of economic significance, has protection function or is envisaged for special purposes.

Forestation is all artificial forestation, by sowing or planting, either to re-grow forests on wasted land (forestation 'in forests') or to grow new forests ('new' forestation).

Forests felling relates to the gross mass of felled timber, measured at stumps.

Technical wood is the wood that is due to its physical and technical properties envisaged for technical and industrial purposes.

WATER SUPPLY AND SEWERAGE

Sources and methods of data collection

Data on water supply and the number of households connected to the network are obtained by means of regular annual surveys on water supply. Data on sewerage and remediation activities and the number of households connected to the sewerage network are collected by the Annual survey on wastewater from settlements. Reporting units shall fill in forms in accordance with respective records and documents, and according to estimates when required. Data are collected annually, starting from 2005.

Coverage

The data on water usage in settlements are collected from reporting units in charge of water supply and/or managing water usage systems. Surveys do not cover individual water supply (household supply) systems, which serve exclusively certain households or household groups. The data on purified and waste water are collected from reporting units responsible for managing public sewerage system.

Definitions

Water supply anticipates total water quantities that the public system has abstracted from surface and underground water abstractions.

Supplied water means all directly abstracted and provided water quantities that the public supply system distributed to users during the referent year. The supplied quantities are determined by water meters or otherwise by calculations as stipulated by regulations for certain activity.

Wastewater is water that after use shall be transported to purification plant, or discharged to recipient (ground, underground or surface water). Wastewater quantities do not include atmospheric water. Wastewater quantities are measured by water meters or estimated according to defined production standards.

To **purify wastewater**, i.e. polluted used water means to eliminate from water, to an acceptable degree, all hazardous matters and radioactive substances that appeared, and in this way to make water safe for use.

CONSTRUCTION

Sources and methods of data collection

Data are collected in Annual survey on construction works, Monthly report on construction permits and Annual report on demolished housing constructions and dwelling adaptations.

Coverage

Annual survey on construction works covers all construction works carried out by legal and physical entities engaged in construction activity, section Construction, as well as legal entities not classified into construction activity, but that comprise units engaged in construction. Data on works carried out by sole proprietors are taken over from the records of construction permits.

Construction works value anticipates all construction materials applied and labor force used. The value does not include the costs of land, project design, supervision and VAT. The value of works relate to undertakings in referent year, i.e. accomplished and unaccomplished constructions. The value of works conducted by contractors is provided on the basis of annual balance statements, and the value of works undertaken by sole proprietors is taken over from the records of construction permits. The works executed were presented by territory where construction sites are found and not by territory, i.e. place where contractor's head office is situated.

Annual report on demolished housing constructions and dwelling adaptations cover demolished housing constructions, as well as buildings with one or more apartments adapted into non-residential premises. Reporting units are respective administrative bodies, as well as units that have available documentation on demolished constructions.

Definitions

Construction anticipates structures on the ground, any underground and over-ground construction, as well as hydro-technical structures, for which construction works are performed, and which are made of construction material, built-in finished products and parts.

Dwelling is any residential construction unit intended for habitation, consisting of one or several rooms with necessary auxiliary spaces (kitchen, bathroom, lobby, pantry, toilet, etc.) or without auxiliary spaces, and with one or more separate entrances.

More detailed methodological explanations on construction statistics are found in the SORS edition Methodologies and standards, Annual survey on construction works, volume 21/2007 and Monthly report on construction permits, volume 22/2007.

TRADE

SALE AND PURCHASE OF AGRICULTURAL, FORESTRY AND FISHING PRODUCTS

Sources and methods of data collection

The data on the sale and purchase of the products of agriculture, forestry and fishing are collected in the Monthly survey on turnover of agricultural products of private production, in enterprises and cooperatives and in the Monthly survey on purchase of agricultural products from family holdings. The report sources are records and other documentation provided by legal persons, cooperatives and other respective organizations.

Coverage

Purchase and sale of agricultural, forestry and fishing produce include sale of own production of enterprises and cooperatives and purchase from family holdings, authorized for organizing further sale or processing.

Definitions

Under the term '**sold and purchased quantities**' we anticipate the turnover, i.e. the delivery of agricultural products from own production of legal persons and cooperatives, as well as directly purchased quantities of agricultural products from family households, aimed at further selling or processing.

TOURIST TRADE

Sources and methods of data collection

The data on tourist arrivals and overnight stays are presented according to regular survey – Monthly survey on arrivals and overnight stays in tourist resorts, where accommodation services are rendered.

Coverage

Monthly survey on tourist trade statistics covers all catering and other entities offering accommodation services. However, the coverage of tourist accommodation services in households may not be considered as complete, since some households provide accommodation services without having obtained license from the respective local government bodies and therefore they are not covered by the statistical survey. Also, some households do not provide data for all tourist customers.

Definitions

A **tourist** is each person who makes at least one overnight stay at a tourist resort or other boarding facility, in the place other than his / her usual place of residence.

Tourists are registered in the place or resort where they stay. In the case of changing the place, they are again registered i.e. double recorded.

TRANSPORT AND COMMUNICATIONS

Sources and methods of data collection

The data on highway and regional roads are provided from the Roads Directorate and the data on local roads from the respective municipal bodies, according to regular annual surveys.

“Srbija”, PTT public enterprise and “TELEKOM SRBIJA”, Joint stock co. provide data on PTT traffic on the basis of regular annual statistical surveys.

The data on registered road motor and articulated vehicles were obtained from the files of registered vehicles that are maintained in the Ministry of Interior of Serbia.

Coverage

Funds and PTT traffic relate to the public PTT traffic carried out under the organization of “Srbija” PTT public enterprise and “TELEKOM SRBIJA”, Joint stock co.

Telephone subscribers comprise the active lines of all legal entities and physical persons, presenting PTT property and subscribers’ ownership.

Covered are all registered vehicles except the vehicles of the Serbian army, diplomatic and consular

representation offices and the vehicles bearing temporary registration plates.

PTT mailing and parcel traffic comprise only dispatches in domestic and dispatches and receipts in international traffic. Data on letter mails include printed items, business documents, dispatches for the blind and air mailings. Turnover of newspapers and magazines is not presented by municipalities, since such dispatches are only registered in the places where editorial boards have their head offices and when received - as letter mails.

EDUCATION

Sources and methods of data collection

Data on pre-school institutions are obtained through regular annual survey on pre-school institutions. Data on primary and secondary education relate to school year end and they are compiled by Annual survey on primary schools at the end of school year and by Annual survey on secondary schools at the end of school year.

Data on enrolled students are compiled through regular annual survey on enrolled students and the data on graduate students – through regular annual surveys on graduate students. Survey on registered (enrolled) students relates to data of winter term registration (in academic year) and survey on graduate students relates to respective calendar year.

Data on students’ boarding houses are taken over from the Ministry of Education, Science and Technological Development.

Coverage

Regular annual surveys cover all pre-school institutions, all regular primary schools (incomplete and complete), primary schools for education of adults, all regular secondary schools, primary and secondary schools and class divisions for children with development disabilities, as well as all schools of tertiary education on the territory of the Republic of Serbia.

Definitions

In the statistics of education, under the term **schools** we anticipate organizations or composite units engaged in teaching activity pursuant to defined study program and curriculum. As schools we anticipated all school units, regardless whether they are independent schools, regional divisions or separate forms within schools of other type.

Primary schools are organized as incomplete (four-grade, five-grade, six -grade) and complete (eight-grade) primary schools. Regular secondary schools include high schools, schools of art, vocational education schools, or schools of composite type.

Special schools include individual primary and secondary schools, as well as special forms for children with special needs within regular primary and secondary schools. Adult education schools include primary schools and forms for adults within regular primary schools. Relative to adult education schools, under the column 'completed educational requirements', covered are the adults that having passed examinations at regular primary schools completed schooling pursuant to study program (curriculum) for adults.

Pre-schools include kindergartens and the forms of pre-school children.

CULTURE

Sources and methods of data collection

The data on cinemas are compiled annually in the regular statistical survey on cinemas (*FILM-1*).

Definitions

A **cinema** is a hall or open-air theater equipped and envisaged for public film projections, regardless the fact it is an independent organization or a composite unit of some other organization. Included are regular cinemas (in permanently occupied halls), open-air cinemas and traveling cinemas.

Cinema performance is a public film projection (feature film projection) that lasts approximately two hours.

HUMAN HEALTH

Sources and methods of data collection

The collection of statistics of health is obligation of the Institute of Public Health of Serbia "Dr Milan Jovanovic Batut".

Coverage

Data published in this chapter were compiled from health care institutions in the Republic of Serbia (without data for Kosovo and Metohija), which are included in the Plan of health institutions network. Figures on staff number are shown as of December 31.

SOCIAL WORK

Sources and methods of data collection

Since 2010, the data on minor and adult beneficiaries of social work activities have been taken over from the Republic Institute for Social Protection. Due to methodology changes regarding data collecting by the Republic Institute for Social Protection, the referent table in this yearbook has been changed. Categories of minor and adult beneficiaries have been changed with categories of children, young, adult and old beneficiaries of social work activities.

Coverage

Regular statistical surveys cover all social work centers, social work services within municipal assemblies and also inter-municipal centers on the territory of the Republic of Serbia.

Definitions

Social work is taken to be the organized social activity of public interest, performed with the aim to encourage citizens for independent and productive living and prevent causing and solve the consequences of social exclusion.

A **social work beneficiary** is any person that is registered as social case to be solved, and this case is further processed by social welfare center or by respective professional team of municipal assembly.

JUSTICE ADMINISTRATION

Sources and methods of data collection

Data on adult and minor persons sentenced by absolute decrees are compiled from the courts of general jurisdiction, by the way of individual statistical questionnaire.

Coverage

Covered are all adult persons, i.e. minor persons pronounced guilty and convicted, i.e. rendered sentence, which courts of general jurisdiction acknowledged as decree absolute, in the respective year and pursuant to Penalty code.

Definitions

Adult person sentenced by decree absolute is a person aged 18 and over and minor person sentenced by decree absolute is a person aged between 14 and 18.

SUMMARY OF PUBLISHED DATA BY MUNICIPALITIES

Here listed are the volumes of "Municipal Statistics" and "Bulletins" that comprise the published data by municipalities.

MUNICIPAL STATISTICS

Complex publications on municipalities

For 1964 and 1965, No. 26

For 1965 and 1966, No. 38

Social and political system

Deputies (committee members): 37, 43, 59

Delegations and delegates: 109

Self-management bodies: 53, 75, 92

Population

Population number: 30, 40

Vital statistics: 17, 30, 39, 51, 66, 70, 81, 90, 98, 105, 110, 118, 125, 129, 131, 135, 137, 141, 148

Death causes: 105

Employment

Employees: 4, 13, 22, 49, 73, 74, 84, 95, 122

Students of qualified workers schools: 4, 49, 73, 74, 84

Examinations for qualified and highly qualified workers: 13, 49, 73, 74, 84, 95

Persons seeking employment: 49, 73, 84, 95, 122

National income

National income: 8, 25, 28, 46, 55, 65, 77, 87, 91, 100

Unincorporated enterprises (entrepreneurs)

Census of entrepreneurs: 155

Agriculture

Areas and yields: 6, 12, 24, 33, 36, 44, 45, 56, 62, 64, 68, 69, 78, 79, 80, 86, 89, 93, 96, 97, 101, 108, 112, 113
