¹⁾ By principle of prevalence used in 1993 SNA.

²⁾ By classification of IMF.

³⁾ Difference between total exports and imports value and sum by territories represents undistributed share of exports and imports.

⁴⁾ Index is bigger than 1000.

1. Exports and imports by development level of countries and economic destination^{1) 2)} (continued)

EUR mill.

⁴⁾ Index is bigger than 1000.

Methodological explanations

Since January 1st 2010 and in accordance with UN Statistical Commission recommendations, **general trade system** has been introduced, presenting broader exports and imports concept and involving overall goods that enter or exit the economic territory of the country, except the transit goods. Besides transit, excluded are also the temporary commodity transactions (fairs, test samples, etc.).

According to general trade system, goods are imported, i.e. exported into: a) free circulating area, rooms for internal processing or industrial free zones; b) customs storage places.

For all other methodological explanations see SORS site:

<http://webrzs.stat.gov.rs/WebSite/Public/PageView.aspx?pKey=260>

Regional external trade is presented according to the headquarters of goods' owners at the moment of customs declaration delivery.

Starting from 1999 the Statistical Office of the Republic of Serbia has not at disposal and may not provide available certain data relative to AP Kosovo and Metohia and therefore these data are not included in the coverage for the Republic of Serbia (total).
