Methodological notes

This statistical release is the result of the regular statistical survey "Quarterly structural report on business activity of enterprises" – SBS – 03 (results for 2007, 2008, 2009, 2010 and 2011 are published in scope of the edition *Working documents* no. 64, 68, 71,76 and 79).

The survey is conducted on the sample of selected enterprises and other legal entities that manufacture and provide services, mainly for market purposes, i.e. the entities that are, by the way of functioning, classified in non-financial business economy. According to CA, non-financial business economy does not include the following sections: K (Financial and insurance activities) and O (Public administration and Defence; compulsory social security). The frame for sample selection was based on the set of enterprises from the Statistical Business Register (SBR). Stratified random sample of 2861 enterprises was selected, out of which 2475 enterprises (86%) was included in realized sample. Related to index second quarter 2013 to the second quarter 2012, the standard error estimate³⁾ of operating income and operating cost is the same and equals 6.5. Regarding index second quarter 2013 to the first quarter 2013, the standard error estimate of operating income equals 2.7 and referring to operating costs, it equals 2.8.

Unincorporated enterprises are excluded.

The enterprises are classified *by the main activity* (for the reporting unit as a whole).

The principal data sources for completing the reports are *bookkeeping records* of enterprises (financial and cost accounting) and other records (tax, staff) and accounts.

The data are expressed at current prices.

Starting from 1999 the Statistical Office of the Republic of Serbia has not at disposal and may not provide available certain data relative to AP Kosovo and Metohia and therefore these data are not included in the coverage for the Republic of Serbia (total).

Methodological notes of the Quarterly structural report on business activity of enterprises are available on the website of the Statistical Office of the Republic of Serbia
