Statistics of social activities

SERB313 DD40 181113

Publishing and printing activities Serial publications, 2012 - Papers (newspapers), magazines and other serials -

The data on serial publications (periodicals) within the division of publishing and printing activities on the territory of the Republic of Serbia are compiled through regular annual surveys "Annual statistical list of papers (newspapers)" and "Annual statistical list of magazines".

Statistics of publishing and printing activities is aimed at compiling data on serial publications (periodicals) issued in our country and put at public disposal, in accordance with the main reference features, on the basis of which it is possible to study the phenomena and trends of publishing and printing activities.

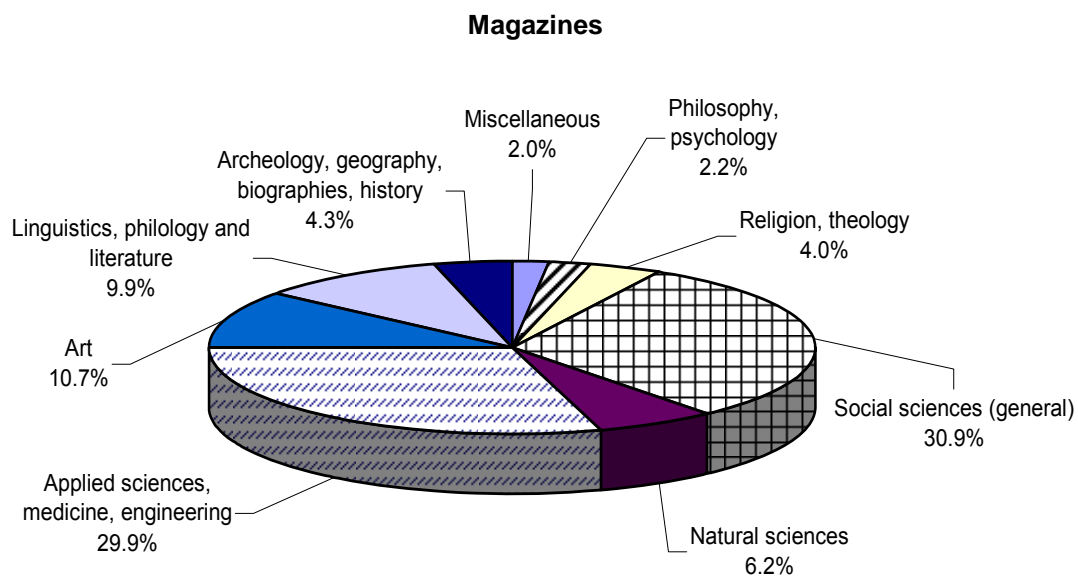

Papers (newspapers) are serials that are published in the country and issued for public disposal, primarily providing information on current events of social and political sciences, literature, sport, etc, processed in popular way.

Magazine is a serial that is issued always under the same title, in more or less regular time intervals and for undefined period of time, dealing with the issues of general interest or of special ones (politics, culture, health, science, etc.).

Pursuant to the methodology of the National Library of Serbia, apart from the papers and magazines, group of serials also covers collected works, unrelated papers with interesting contents, general reviews, database and other serial publications. Since 2010, general review is not included in magazines, but it presents the separate type of serial publication.

All serial publications are classified by divisions, according to Universal Decimal Classification (UDC) that presents the developed international classification system, applicable to overall knowledge, regardless of the its form.

The data from this division are extracted from the mutual Serbian catalogue COBIB.SR, with the support of the National Library of Serbia.
