Other	277	247	3	1	26

## Methodological explanation

Data on social welfare beneficiaries and conducted forms, measures and services of social welfare, as well as data on employees in social welfare institutions, have been taken over from the Republic Institute for Social Protection.

Social welfare presents an organized social activity of public interest, performed with the aim of strengthening individuals for independent and productive life in the community, as well as preventing occurrence and eliminating consequences of social exclusion.

Beneficiary of social welfare is taken to be every person that, during the reporting year, once or several times, used certain forms and measures of social welfare and services of social work, with the aim of solving the social cases that are further processed in social welfare centers or competent services of municipal councils.
