

STATISTICAL RELEASE

GR30

Number 011 – Year LXVI, 18/01/2016

Construction Statistics

SERB011 GR30 180116

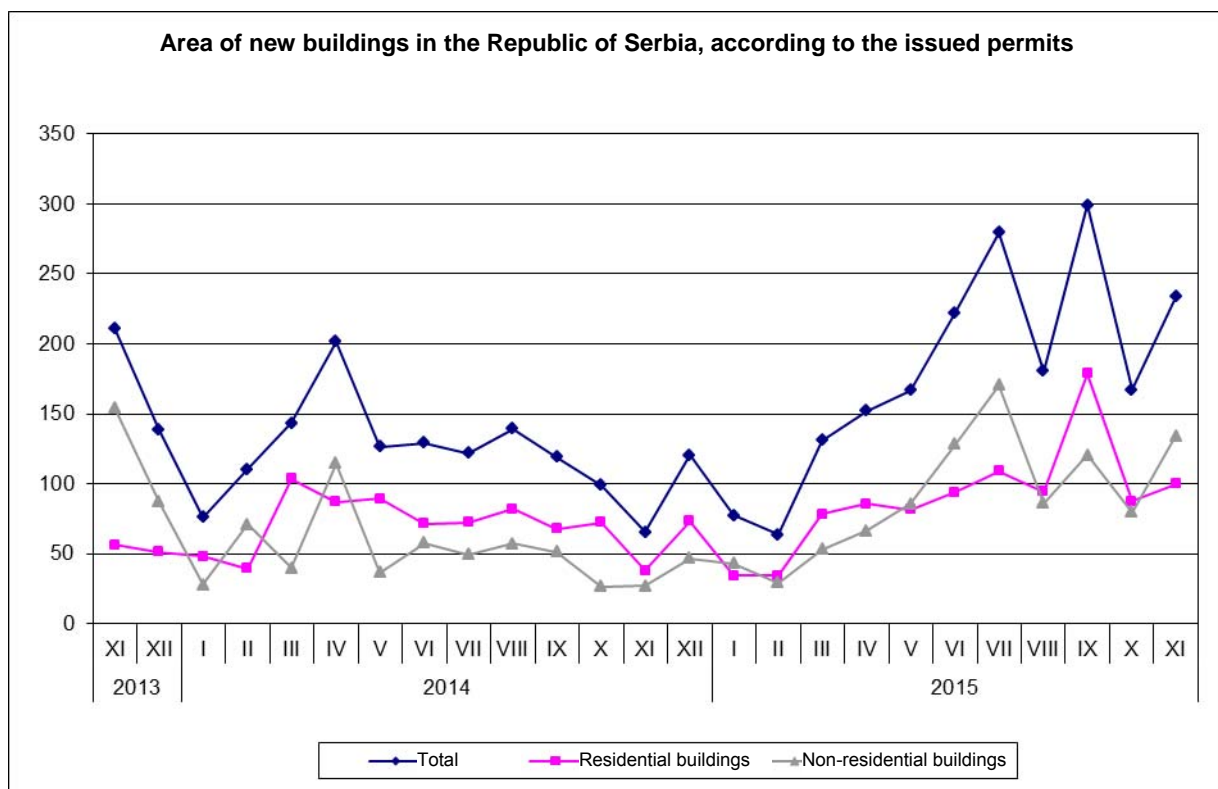

Issued building permits in the Republic of Serbia, November 2015 – Preliminary results –

On the basis of the number of issued permits in November 2015, building of 1076 dwellings with average area of 68.7 m² was recorded. Number of dwellings increased, according to the issued permits, by 182.4% when compared to November 2014. Out of the total number of dwellings in new residential buildings, 13.9% of dwellings will be built in single – dwelling buildings, with average area of 121.2 m², while 82.6% of dwellings will be in the buildings with three and more dwellings, with significantly smaller average area of 57.3 m².

In November 2015, 928 building permits were issued, presenting the increase of 45.2% in relation with November 2014. Index of anticipated value of works in November 2015 is by 278.9% higher than in November 2014.

Observed by types of constructions, in November 2015, 75.6% of issued permits related to buildings and 24.4% to civil engineering. When referring only to buildings, 64.1% related to residential buildings and 35.9% to non-residential ones, while regarding civil engineering, the largest number related to pipelines, communication and electric power lines, 60.6%.

Anticipated value of works on new building in November 2015 amounts to 86.4% of totally anticipated value of works. Observed by areas, the greatest construction activity was noted in Braničevska oblast, 45.5% of the anticipated value, followed by Beogradska oblast, 12.9%, Raška oblast, 12.6% and Sremska oblast, 6.1%, while the shares of other areas were from 0.1% up to 3.3%.

Dwellings				
Number	120.3	130.3	282.4	145.2
Useful area	123.0	108.1	227.2	132.7

Notes:

The presented data are collected in the scope of monthly survey on building permits. The report is filled in by the Ministry competent for construction affairs, responsible authorities of the Autonomous Province, city or municipality that, according to the Law on planning and construction ("Official Gazette of the Republic of Serbia", number 132/14, article 133), issue construction permits.

In the scope of this survey, the concept of „building permit“ comprises the building permit for construction and the decision which approves the execution of works.

This statistical survey comprises the issued building permits for all types of constructions described in the Classification of Types of Constructions, i.e. buildings and other civil engineering works and these are presented by territories where the planned works are performed in the country.

Data on issued building permits show the dynamics of construction activity and enable an insight in investments' structure on state and local self – government level.

Starting from 1999 the Statistical Office of the Republic of Serbia has not at disposal and may not provide available certain data relative to AP Kosovo and Metohija and therefore these data are not included in the coverage for the Republic of Serbia (total).

Detailed methodological notes of this survey can be found in the edition of SORS "Methodologies and Standards". On the website of the Office, the following information can be obtained:
