

STATISTICAL RELEASE

DD20

Number 96 - Year LXVI, 21.04.2016.

SERB096 DD20 210416

Statistics of social activities

Pre-primary education in the Republic of Serbia, 2015/2016 school year

METHOLOGICAL EXPLANATIONS

Data in this release have been obtained on the basis of the annual statistical report Pre-primary Education (form PSV) in the 2015/16 school year. The data refer to all preschool institutions, primary schools and other organisations authorised by the competent ministry, which as of 1 December 2015 carried out educational programme with preschool children (aged from six months to the start of primary school).

This release presents the following data: number of preschool institutions; number of facilities carrying out the pre-primary educational programme by ownership; enrolled children by age, sex and length of stay; groups; employees by types/titles of occupation and sex; as well as the coverage of children in compulsory preschool preparatory programme (attendance in preschool preparatory programme - PPP). The data are shown up to the level of regions (NSTJ 2).

Documentation tables of the Statistical office of the Republic of Serbia contain detailed information on institutions carrying out the preschool educational programme and on preschool children attending those programmes. Information has been obtained by automatic processing of the data from the reports.

Starting from 1999 the Statistical Office of the Republic of Serbia has not at disposal and may not provide available certain data relative to AP Kosovo and Metohija and therefore these data are not included in the coverage for the Republic of Serbia (total).

1. Pre-primary institutions by ownership, enrolled children, children not enrolled due to limited capacities and children enrolled in excess of the maximum norm
