Population statistics

SERB172 SN60 290618

Internal migration, 2017

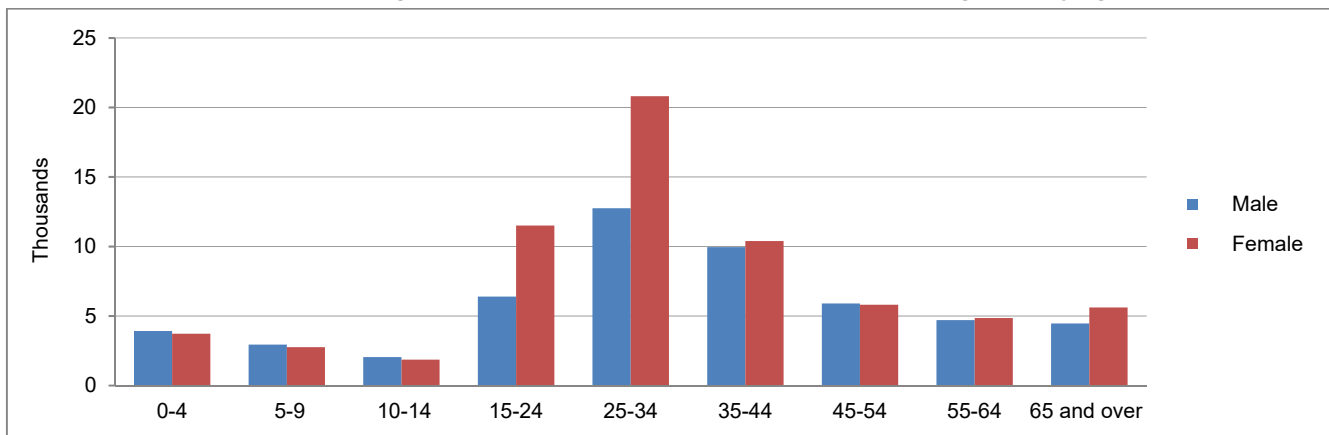

The statistical release on the internal migration in the Republic of Serbia during 2017 includes the data on persons who have changed residence¹⁾, i.e. migrated permanently from their former place (settlement) of permanent residence to another place (settlement) within the Republic of Serbia.

Migration balance means the difference between the number of immigrated and emigrated persons on a certain area. The migration balance, along with the data on natural increase (difference between the number of live births and deaths), is the component used to calculate the estimated number of inhabitants of a selected area.

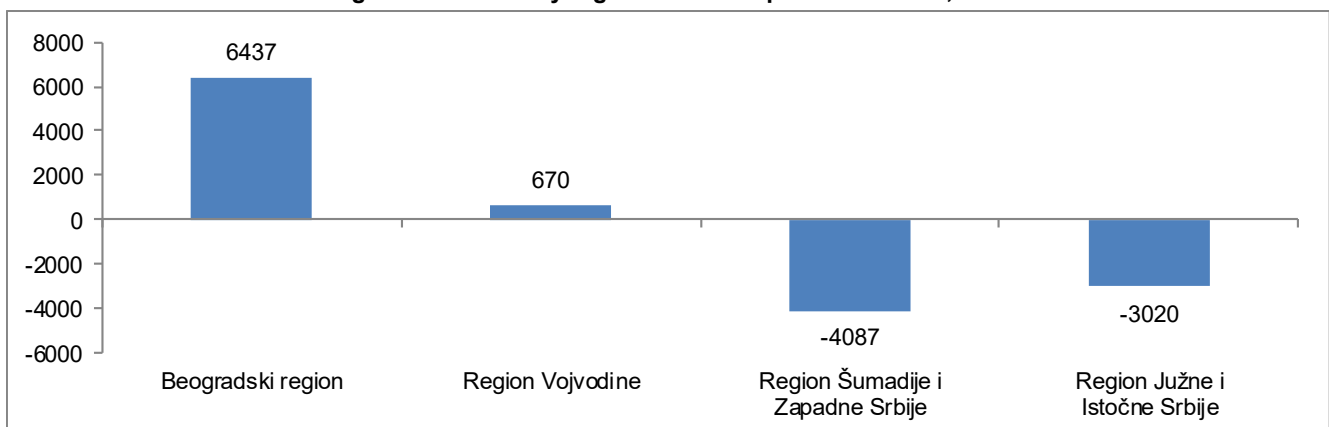

The Ministry of Internal Affairs is in charge of collecting the data on persons who have changed residence.

Starting from 1998 the Statistical Office of the Republic of Serbia has not available certain data for the AP Kosovo and Metohija; therefore these data are not contained in the coverage for the Republic of Serbia (total).

Persons who have changed residence within the Republic of Serbia during 2017, by age and sex

Migration balance by regions of the Republic of Serbia, 2017

¹⁾ Under the Law on Citizens' Residence and Domicile, „Official Gazette of the RS“, no 87/2011, residence is the place where citizens have settled in with the intention to live in permanently, i.e. the place which is the center of their everyday life activities, professional, economic, social and other relationships that confirm their permanent link with the place they have settled in“.

**Persons who have changed residence within the Republic of Serbia during 2017,
by area they moved from/to**
