Methodological notes

Data on entry, exit and transit of freight road vehicles by countries of registration are taken over from the Ministry of Finance – Customs Administration. Presented are also data on number of freight vehicles and quantity of transported goods by countries of vehicles registration.

Due to the implementation of the Law on Confirmation of the Convention on a Common Transit Procedure, which enables the Parties to the customs procedure transport the goods between the Contracting Parties to the Convention on the basis of one electronic declaration and one security valid throughout the transit operation, the number of freight vehicles is no longer comparable to the data from the previous years and it is not, therefore, presented here.
