

Statistical Release

PO12

Number 034 • Year LXIII, 21/02/2013

Statistics of agriculture

SERB034 PO12 210213

Number of livestock in the Republic of Serbia

As of 01.12.2012

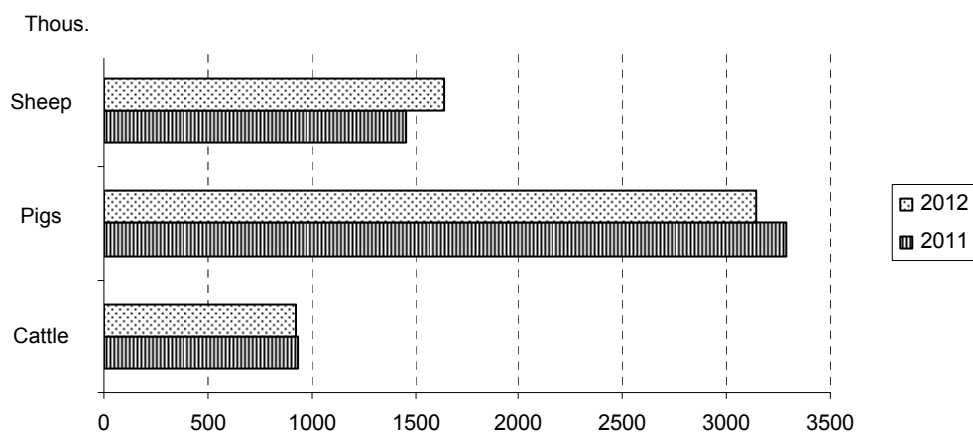

- Preliminary results -

The data presented in this statistical release are estimations of livestock number by types, provided on the basis of the first results of 2012 Agriculture Census, data on livestock slaughter in abattoirs and final results from the surveys in the area of livestock breeding from the previous years.

According to the mentioned data, in the Republic of Serbia, as of December 1st 2012 and relative to the previous results, total number of cattle decreased by 1.7%, of cows and heifers in calf by 0.8%, of pigs by 4.5%, of sows and sows of first farrow by 5.7%, of horses by 1.4%, while total number of sheep increased by 12.0%, of ewes for breeding by 11.2%, of goats by 81.6% and of poultry by 26.6%.

Starting from 1999 the Statistical Office of the Republic of Serbia has not at disposal and may not provide available certain data relative to AP Kosovo and Metohija and therefore these data are not included in the coverage for the Republic of Serbia (total).

Number of livestock in the Republic of Serbia, 2011 and 2012
