## **Economic trends in the Republic of Serbia, 2013 - Estimation -**

The data on economic trends in 2013 presented herein are estimated according to the available data that have been published so far. The provided indicators do not include data for AP Kosovo and Metohija.

The major economic aggregate is Gross domestic product, which presents the measure of overall economic activity of all residential institutional units. The estimations of Gross domestic product are internationally comparable.

According to estimations, the overall economic activities in 2013, measured by GDP and presented in previous year prices, expressed real growth of 2.4% in relation to 2012. Observed by activities, the largest growth of Gross value added was noted for the sections: agriculture, forestry and fishing; electricity, gas, steam and air conditioning supply; and manufacturing. The GVA fall was noted for the sections of: construction; other service activities; and wholesale and retail trade, repair of motor vehicles.

In 2013 industrial production noted physical volume growth of 6.3%, which was mainly contributed by the section of electricity, gas, steam and air conditioning supply. Agricultural production in 2013 expressed physical volume growth of 22.1%.

The value of construction works carried out in 2013 noted fall of 27.9%. The retail trade turnover expressed real fall of 5.1%, while the wholesale trade turnover slightly decreased. In 2013 the section of accommodation and food service activities expressed growth of 0.4%, while the number of overnight stays increased by 1.0%. The section of transportation and storage noted 2.2% physical volume growth and division of telecommunication recorded 24.9% growth.

In 2013, the number of employed decreased by 1.6% in relation to 2012. The number of employed males decreased by 1.0%, and the number of employed females by 2.4%. Here presented are data on unemployment rate, which in April 2013 equaled 24.1% according to the Labor Force Survey.

Net salaries and wages in 2013 increased by 5.7% in nominal terms, and by 1.9% in real terms when related to 2012.

Annual inflation rate was estimated to equal 2.3%.
