Number 155 – Year LXVIII, 15/06/2018

Construction Statistics

SERB155 GR30 150618

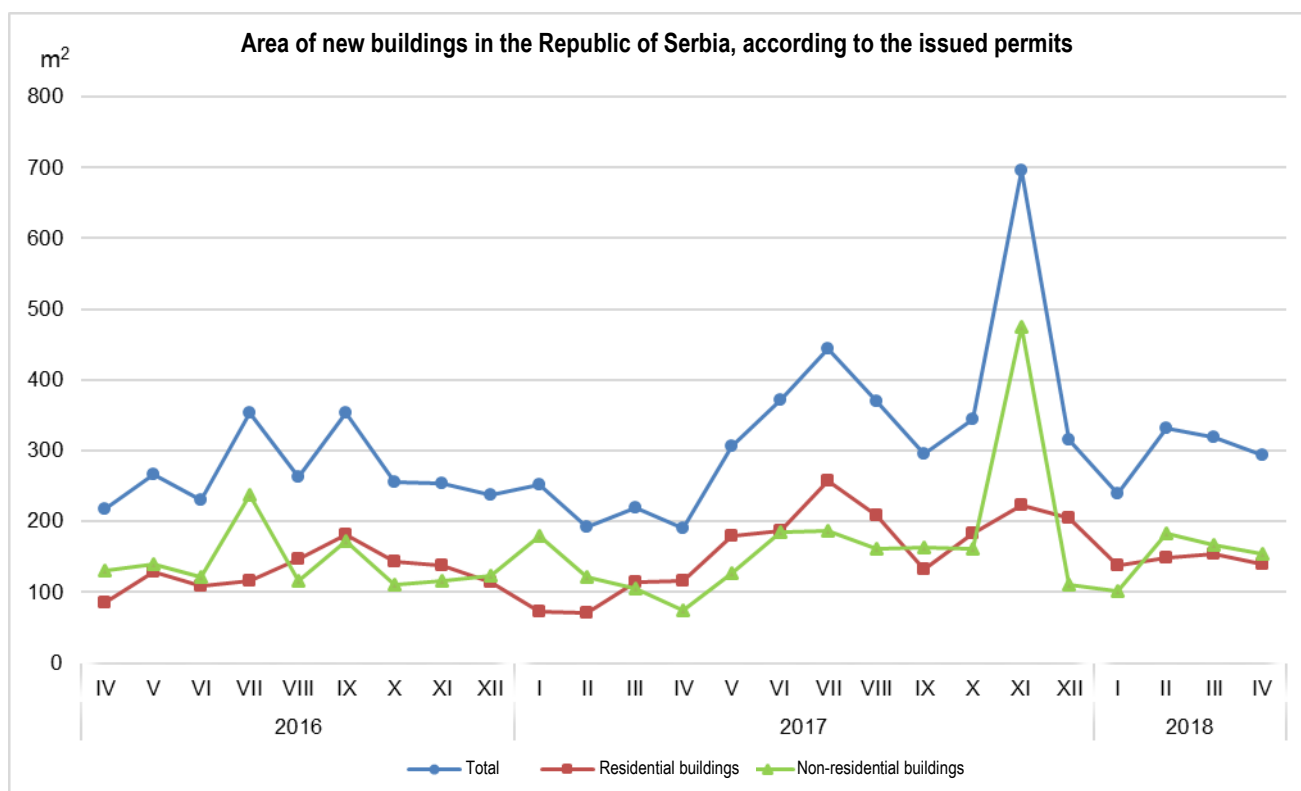

Issued building permits, April 2018 – Preliminary results –

In April 2018, 1363 building permits were issued, presenting the increase of 3.4% in relation with April 2017. Index of anticipated value of works in April 2018 is by 160.9% higher than in April 2017.

Observed by types of constructions, in April 2018, 73.5% of issued permits related to buildings and 26.5% to civil engineering. When referring only to buildings, 56.4% related to residential buildings and 43.6% to non-residential ones, while regarding civil engineering, the largest number related to pipelines, communication and electric power lines (59.0%).

On the basis of the number of issued permits in April 2018, building of 1283 dwellings with average area of 78.3 m² was recorded. Number of dwellings increased, according to the issued permits, by 0.2% when compared to April 2017. Out of the total number of dwellings in new residential buildings, 13.8% of dwellings will be built in single – dwelling buildings, with average area of 147.6 m², while 83.7% of dwellings will be in the buildings with three and more dwellings, with significantly smaller average area of 64.3 m².

Anticipated value of works on new building in April 2018 amounts to 88.4% of totally anticipated value of works. Observed by areas, the greatest construction activity was noted in Južnobanatska oblast, 49.7%, of the anticipated value of new construction followed by Beogradska oblast, 7.5%, Rasinska oblast, 6.8%, Južnobačka oblast, 6.5%, and Sremska oblast, 6.1%, while the shares of other areas were from 0.1% up to 2.7%.

Dwellings				
Number	147.1	85.7	100.2	78.6
Useful area	149.1	84.8	112.3	82.6

Notes:

The data on issued building permits are overtaken from the Central Register of Integrated Procedures, which has been, according to the Law on planning and construction ("Official Gazette of the Republic of Serbia", number 132/14, article 8) administered by the Serbian Business Registers Agency (SBRA). The data on dwellings, unavailable in Central Register of Integrated Procedures, are filled in by the Ministry competent for construction affairs, responsible authorities of the Autonomous Province, city or municipality that, according to the Law on planning and construction ("Official Gazette of the Republic of Serbia", number 132/14, article 133), issue construction permits.

In the scope of this survey, the concept of „building permit“ comprises the building permit for construction and the decision which approves the execution of works following the article 145 of the Law on planning and construction. The issued building permits and approvals for works executions, based on harmonized request, included are only if the construction is approved for the first time.

This statistical survey comprises the issued building permits for all types of constructions described in the Classification of Types of Constructions, i.e. buildings and other civil engineering works and these are presented by territories where the planned works are performed in the country.

Data on issued building permits show the future trends of construction activity and enable an insight in investments' structure on state and local self – government level.

Starting from 1999 the Statistical Office of the Republic of Serbia has not at disposal and may not provide available certain data relative to AP Kosovo and Metohija and therefore these data are not included in the coverage for the Republic of Serbia (total).

Detailed methodological notes of this survey can be found on the site of the Statistical Office of the Republic of Serbia: <http://www.stat.gov.rs/istrazivanja/methodology-and-documents/?a=05&s=0>.
