**Methodological explanations**

Indices of producers' prices of industrial products – total, have been calculated since 2010. These indices are calculated on the basis of data that are collected for the producers' prices of industrial products for domestic market and for the producers' prices of industrial products for exports.

Detailed methodological explanations are available on the website of the Statistical Office of the Republic of Serbia: <http://www.stat.gov.rs/sr-Latn/istrazivanja/methodology-and-documents>

Data are published on the seventh day of each month for the previous month in the edition Statistical Releases, with the indication CN22, as well as on the website of the Statistical Office of the Republic of Serbia.
