

STATISTICAL RELEASE

DD40

Number 307 Year LXXII, 14/11/2022

Culture statistics

SERB307 DD40 141122

Publishing and printing activities Serial publications, 2021 - Papers (newspapers), magazines and other serials -

1 677 serial publications were published in the Republic of Serbia in 2021, presenting the increase of 2.4% relative to 2020.

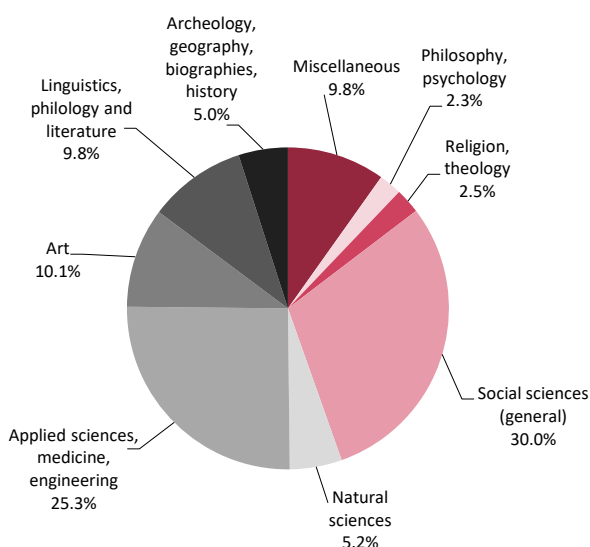

Out of total number of serials published, 83.1% related to magazines, 12.7% to papers (newspapers), and 4.1% to other serial publications, and 0.1% to unrelated sheets with interesting content.

All serial publications are classified by divisions, according to Universal Decimal Classification (UDC) that presents the developed international classification system, applicable to overall knowledge, regardless of its form.

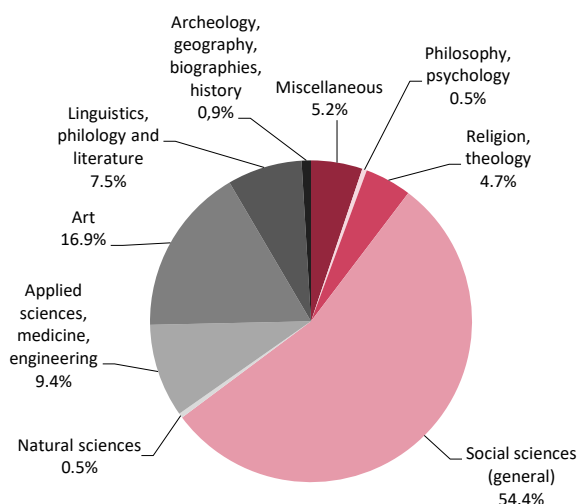

The greatest part of issued serial publications by UDC is from the divisions of social sciences (32.9%) and applied sciences, medicine and engineering (22.7%), followed by publications from the division of art (11.3%).

The smallest number of issued serials is from the division of philosophy and psychology (2.0%), religion and theology (2.9), and archaeology with geography, biographies and history (4.4%).

Magazines

Papers (newspapers)

¹⁾Total number of serials includes also the publications printed in the Republic of Serbia, by the publishers seated abroad.

²⁾Incomplete coverage.

Statistics of serial publications activities is aimed at compiling data on papers, magazines and other serial publications (periodicals) issued in our country and put at public disposal, in accordance with the most important bibliographic features, on the basis of which it is possible to study the phenomena and trends of publishing and printing activities.

According to the methodology of the National Library of Serbia, in addition to papers and magazines, the group of serial publications includes collected works, unrelated papers with interesting content and other serial publications.

The basic material for obtaining the data from this division is extracted from the mutual Serbian catalogue COBISSNBS base, with the support of the National Library of Serbia.

Total number of serials includes also the publications printed in the Republic of Serbia, by the publishers seated abroad (separately presented).

The data on serial publications (periodicals) within the division of publishing and printing activities on the territory of the Republic of Serbia are compiled through regular annual surveys "Annual statistical list of papers (newspapers)" and "Annual statistical list of magazines".

Papers (newspapers) are serials that are published in the country and issued for public disposal, primarily providing information on current events of social and political sciences, literature, sport, etc. processed in popular way.

Magazine is a serial that is issued always under the same title, in more or less regular time intervals and for undefined period of time, dealing with the issues of general interest or of special ones (politics, culture, health, science, etc.).
