Methodological notes

Data on the entry, exit and transit of freight road vehicles, by country of vehicle registration, are taken from the Ministry of Finance - Customs Administration. Data on the number of freight road vehicles and the quantity of transported goods by country of vehicle registration are presented.

Due to the beginning of the application of the Law on confirming the Convention on a common transit procedure, which provides the ability to the involved in customs procedure to transport the goods among the contracting parties of the Convention on the basis of a single electronic declaration and a single security which lasts during the whole transitory operation, the number of freight vehicles in transit is no longer comparable with the data from the previous years, and therefore, it is not presented.

The Republic Statistical Office does not have individual data for the Autonomous Province of Kosovo and Metohija.
